Terminology

Safeguarding and promoting the welfare of children is defined as:

- protecting children from maltreatment.
- preventing impairment of children's mental and physical health or development.
- ensuring that children grow up in circumstances consistent with the provision of safe and effective care.
- taking action to enable all children to have the best outcomes.

Child Protection is a part of safeguarding and promoting welfare. It refers to the activity that is undertaken to protect specific children who are suffering, or are likely to suffer, significant harm.

Early Help means the providing support as soon as additional needs and support emerge at any point in a child's life.

Staff refers to all those working for or on behalf of the school, full or part time, temporary or permanent, in either a paid or voluntary capacity.

Child includes everyone under the age of 18 and applies to pupils/ students at our school; however, the policy will extend to visiting children and students from other establishments.

Parents refers to birth parents and other adults who are in a parenting role, e.g. step-parents, foster carers, adoptive parents and those adults caring for children with a Special Guardianship Order.

Social Care refers to Children's Services in the area in which the child is resident, unless a child is a Child Looked After then this will be the Children's Services in their home authority. Please note that the front door of Children's Social Care was previously known as the multi-agency safeguarding hub (MASH). This has recently been renamed as the Child and Family hub.

Introduction

This policy has been developed in accordance with the principles established by the Children Acts 1989 and 2004; the Education Act 2002, and in line with government publications: 'Working Together to Safeguard Children' 2018, Revised Safeguarding Statutory Guidance 2 'Framework for the Assessment of Children in Need and their Families' 2000, 'What to do if You are Worried a Child is Being Abused' 2015.

The policy also reflects, both statutory guidance 'Keeping Children Safe in Education' 2023 (KCSIE), and [Merton Children's Safeguarding Partnership \(MCSP\) Procedures](#).

This policy is also based on the [Education and Training \(Welfare of Children\) Act 2021](#), which places a duty on academies to safeguard and promote the welfare of pupils at the school.

The Governing body takes seriously its responsibility under section 175/157 of the Education Act 2002 to safeguard and promote the welfare of children; and to work together with other agencies to ensure adequate arrangements within our school to identify, assess, and support those children who are suffering harm.

This policy applies to all members of staff and governors in the school.

Guidance and documents referred to in this policy

- [Working Together to Safeguard Children \(2018\)](#)
- [Keeping Children Safe in Education 2023 \(KCSIE\)](#)
- [Disqualification under the Childcare Act 2006 \(updated 2018\)](#)
- [FGM Act 2003 Mandatory Reporting Guidance 2016](#)
- [‘What to do if you are worried a child is being abused’ 2015](#)
- [Teacher Standards 2011 \(updated 2021\)](#)
- [Information Sharing Advice for Practitioners’ guidance 2018](#)
- [The Equality Act 2010](#)
- [The Human Rights Act 1998](#)
- [National Police Chiefs Council – When to call the police](#)
- [Revised Prevent Duty Guidance for England and Wales 10 April 2019](#)
- [Relationships Education, Relationships and Sex Education and Health Education 2019](#)

Child Protection Procedures:

If you have any concerns about the health and safety of a child at this school or feel that something may be troubling them, you will need to decide what action to take. **You should report any concerns directly to On-Call.**

Please do not worry that you may be reporting a small matter – we would rather you report things which turn out to be small than miss a worrying situation?

The following procedures apply to all staff working in the school and will be covered by training to enable staff to understand their role and responsibility.

The aim of our procedures is to provide a robust framework which enables staff to take appropriate action when they are concerned that a child is being harmed or abused or is at risk of harm or abuse.

The primary concern at all stages must be the interests and safety of the child. Where there is a conflict of interest between the child and an adult, the interests of the child must be paramount.

If you think the matter is very serious and may be related to a child protection concern, where the child has been harmed or is at risk of harm e.g. emotional, physical, sexual, abuse or neglect, a referral should be made to children’s social care and/or the police immediately.

Anyone can make a referral, but where you make a referral without reference to the Designated Safeguarding Lead first, they must be informed as soon as possible. Do not delay. If you are unable to contact them, you can ask the school office staff to find them and ask them to speak to you straight away about a confidential and urgent matter.

The people you should talk to at Harris Academy Morden are:

The Designated Safeguarding Lead

Name: Lynn Edwards

Telephone number: 020 8687 1157 ex 3710

Deputy Safeguarding Lead

Name: Emily Blenkinsop

Telephone: 020 8687 1157 ex 3746

Deputy Safeguarding Lead

Name: Viola Milton

Telephone: 020 8687 1157 ex 3751

Deputy Safeguarding Lead

Name: Julie Shepherd

Telephone number: 020 8687 1157 ex: 3738

In the event of the designated and deputy Leads being unavailable, the duty will fall to the Faculty Coordinators who are: Shivon Allicock – Red, Eric Adou – Yellow, Susan Kaggwa – Green, Saimah Kidwai and Krystyna Snell - Blue. **The Designated Safeguarding Team at HAMD comprises of the following members of staff:** ***The Senior Leadership Team:*** Julian Sparks Principal, Kimberley Brazier, Daniel Bushay, Lucia Catanzaro, George Harvie, John Humber, Tyrone Liversage, Dominique Low, Emylene Mathieson, Laura Mulvenna and Maria Stephenson.

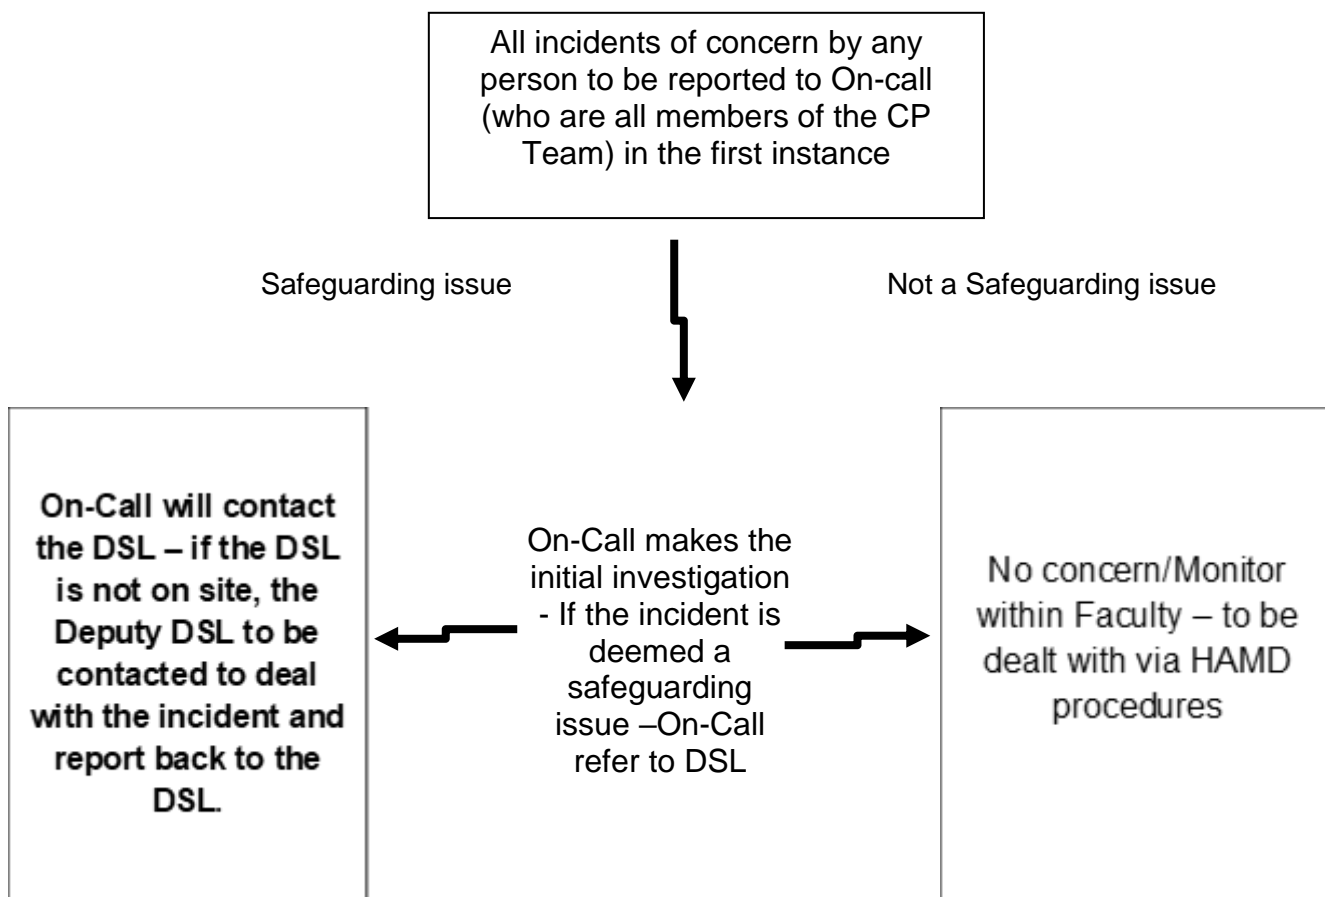

The entirety of the safeguarding team is Level 2 trained. The DSL and DDSL’s are trained to Level 3.

Please see the table below regarding any allegation or disclosure involving someone who works with children in a paid or voluntary capacity. (The Contact details for Rebecca Hickey are on the Harris Federation website).

All concerns regarding a student should be reported to Lynn Edwards.

Who is the Allegation About	Who to Report The Issue To
Assistant Director Lee Mallin 	Rebecca Hickey Director of Secondary Education
Principal Julian Sparks 	Assistant Director Lee Mallin
A Staff Member 	Principal Julian Sparks
A Student 	Designated Safeguarding Lead Lynn Edwards

HAMD Safeguarding Flowchart

The DSL will make a referral to Children’s Social Care.

If a member of staff suspects abuse, spots signs or indicators of abuse, or they have a disclosure of abuse made to them they must:

1. Make an initial record of the information related to the concern.
2. Report it to On-Call immediately who will inform the DSL.
3. The DSL will consider if there is a requirement for immediate medical intervention, however urgent medical attention should not be delayed if the DSL is not immediately available.
4. Make an accurate record (which may be used in any subsequent court proceedings) as soon as possible and within 24 hours of the occurrence, of all that has happened, including details of:
 - Dates and times of their observations
 - Dates and times of any discussions in which they were involved.
 - Any injuries identified on a body map
 - Explanations given by the child / adult
 - Rationale for decision making and action taken
 - Any actual words or phrases used by the child
5. Any paper records must be signed and dated by the author. The record needs to be completed by the adult who received the information.

6. In the absence of the DSL or the deputies, staff must be prepared to refer directly to the Child and Family hub and the police if appropriate, if there is the potential for immediate significant harm.

Following a report of concerns the DSL must:

1. Decide whether there are sufficient grounds for suspecting significant harm, in which case a referral must be made to the C&F hub and the Police if it is appropriate.
2. Try to discuss any concerns about a child's welfare with the family and where possible to seek their agreement before making a referral to the C&F hub. **However, this should only be done when it will not place the child at increased risk or could impact a police investigation. The child's views should also be considered.**
3. Contact the Child and Family (C&F) hub team if there are grounds to suspect a child is suffering, or is likely to suffer, significant harm or abuse. If a child is in immediate danger and urgent protective action is required, the Police (dial 999) must be called. The DSL must also notify C&F hub of the occurrence and what action has been taken
4. Phone the C&F hub to discuss concerns if the DSL feels unsure about whether a referral is necessary.

If there is not a risk of significant harm, the DSL will either actively monitor the situation. When a pupil needs urgent medical attention and there is suspicion of abuse two members of the CP team can take the child to the accident and emergency unit at the nearest hospital, having first notified C&F hub. The DSL should seek advice about what action the C&F hub will take and about informing the parents, remembering that parents should normally be informed that a child requires urgent hospital attention.

The exception to this process will be in those cases of known FGM where there is a mandatory requirement for the teacher to report directly to the police. The DSL should also be made aware.

Dealing with disclosures

All staff

A member of staff who is approached by a child should listen positively and try to reassure them. They cannot promise complete confidentiality and should explain that they may need to pass information to other professionals to help keep the child or other children safe. The degree of confidentiality should always be governed by the need to protect the child.

Additional consideration needs to be given to children with communication difficulties and for those whose preferred language is not English. It is important to communicate with them in a way that is appropriate to their age, understanding and preference.

We are aware that children may not feel ready or know how to tell someone that they are being abused, exploited, or neglected, and they may not recognise their experiences as harmful. For example, children may feel embarrassed, humiliated, or being threatened.

This could be due to their vulnerability, disability and/or sexual orientation or language barriers. This will not prevent us from having a professional curiosity and speaking to the DSL if we have

concerns about a child. It is also important that we determine how best to build trusted relationships with children and young people which facilitate communication.

All staff must know who the DSL is and who to approach if the DSL is unavailable. All staff have the right to make a referral to the C&F hub or Police directly and must do this if, for whatever reason, there are difficulties following the agreed protocol, for example, they are the only adult on the school premises at the time and have concerns about sending a child home.

Talking to and listening to children

If a child chooses to disclose, you SHOULD:

- Listen and reassure
- be accessible and receptive
- listen carefully and uncritically at the child's pace
- take what is said seriously
- tell the child that you must pass this information on
- explain what will happen next
- make a careful record of what was said in the child's words
- sign, date and record the time on records

You should NEVER:

- take photographs of injuries
- examine marks/ injuries solely to assess whether they may have been caused by abuse (there may be a need to give appropriate first aid)
- investigate or probe, aiming to prove or disprove possible abuse – never ask leading questions
- make promises to children about confidentiality or keeping 'secrets'
- assume that someone else will take the necessary action
- jump to conclusions or react with shock, anger or horror
- speculate or accuse anybody
- confront another person (adult or child) allegedly involved
- offer opinions about what is being said or about people allegedly involved
- forget to record what you have been told
- delay or fail to pass the information on to the correct person
- ask a child to sign a written copy of the disclosure or a 'statement'.

For children with communication difficulties or who use alternative/augmented communication systems, staff may need to take extra care to ensure that signs of abuse and neglect are identified and interpreted correctly, but concerns should be reported in exactly the same manner as for other children.

Guiding principles, the seven R's

Receive

- Listen to what is being said, without displaying shock or disbelief
- Accept what is said and take it seriously
- Make a note of what has been said as soon as practicable

Reassure

- Reassure the pupil, but only so far as is honest and reliable
- Do not make promises you may not be able to keep e.g. 'I'll stay with you' or 'everything will be alright now' or 'I'll keep this confidential'
- Do reassure, for example, you could say: 'I believe you', 'I am glad you came to me', 'I am sorry this has happened', 'We are going to do something together to get help'

Respond

- Respond to the pupil only as far as is necessary for you to establish whether you need to refer this matter, but do not interrogate for full details
- Do not ask 'leading' questions i.e. 'did he touch your private parts?' or 'did she hurt you?' Such questions may invalidate your evidence (and the child's) in any later prosecution in court
- Do not ask the child why something has happened.
- Do not criticize the alleged perpetrator; the pupil may care about him/her, and reconciliation may be possible
- Do not ask the pupil to repeat it all for another member of staff. Explain what you must do next and whom you have to talk to. Reassure the pupil that it will be a senior member of staff

Report

- Share concerns with the DSL immediately.
- If you are not able to contact your DSL or the Deputy DSL, and the child is at risk of immediate harm, contact the C&F hub C&F hub or Police, as appropriate directly.
- If you are dissatisfied with the level of response, you receive following your concerns, you should press the DSL for re-consideration

Record

- If possible, make some very brief notes at the time, and write them up as soon as possible. The original notes need to be kept secure and included in the Child Protection file
- Record the date, time, place, person or people present and noticeable nonverbal behaviour, and the words used by the child. If the child uses sexual 'pet' words, record the actual words used, rather than translating them into 'proper' words
- If appropriate, complete a body map to indicate the position of any noticeable bruising.
- Record facts and observable things, rather than your 'interpretations' or 'assumptions'

Remember

- Support the child: listen, reassure, and be available
- Complete confidentiality is essential. Share your knowledge only with appropriate professional colleagues
- Get some support for yourself if you need it

Review (led by DSL)

- Has the action taken provided good outcomes for the child?
- Did the procedure work?
- Were any deficiencies or weaknesses identified in the procedure? Have these been remedied?
- Is further training required?

What happens next?

It is important that concerns are followed up and it is everyone's responsibility to ensure that they are. The member of staff should be informed by the DSL what has happened following a report being made. If they do not receive this information, they should seek it out. Ensure the incident is recorded.

Receiving a disclosure can be upsetting for the member of staff and schools should have a procedure for supporting them after the disclosure. This might include reassurance that they have followed procedure correctly and that their swift actions will enable the allegations to be handled appropriately.

In some cases, additional counselling might be needed, and staff should be encouraged to recognise that disclosures can have an impact on their own emotions

Lanyards:

All staff and visitors will wear a coloured lanyard to indicate whether they are able to be in the Academy supervised or unsupervised.

- **Green:** Meets DBS requirements and can walk around unsupervised
- **Red:** Must be supervised (students will inform staff if a red lanyard visitor is not accompanied).

All members of staff should be aware of procedures to be followed in the event of a child disclosing information or their detecting signs of abuse.

Safeguarding demographics within the London Borough of Merton and HAMD:

Harris Academy Morden (HAMD) is situated in Merton which is an outer London borough located in South London. We have a high level of vulnerable students who rely on us for advice and guidance. Our students know that we will listen and take them seriously. 45% of our students are categorised as disadvantaged, 46.9% have English as an additional language and 21.9% have Special Educational Needs. We have 27 students with an Education Health Care Plan. **Please see our Pastoral Invention offer which I hope goes some way to explain the support that we offer to our students and families at HAMD. We also signpost parents to this support which is documented on our website. All staff are aware of our "offer" so that they can support carers/parents when they meet with them.**

HAMD was graded as **outstanding** during our last Ofsted inspection between 27th -28th June 2018. In their summary of findings which was led by Sarah Parker, the team commented: **A strong culture of safeguarding is at the heart of school life. Pupils feel safe and are well informed about risks and how these should be managed, both in and out of school.**

Merton's Children's Social care received a full Ofsted inspection between 28th February -4th March 2023, the Lead inspector was Brenda McLaughlin. The final overall judgement was graded as outstanding.

Two areas were identified for improvement:

1. The quality of work with some children by out-of-hours staff when children need to come into care.
2. A flexible needs-led housing offer when young people leave care.

The priorities for Merton Children’s Safeguarding Partnership for 2023-2025 are:

1. Early Help
2. Mental Health and Wellbeing
3. Contextual Safeguarding
4. Domestic Abuse
5. Neglect
6. Strong Leadership and Strong Partnership

The MSCP cross-cutting themes for 2023-25 are:

- Voice of children, young people, and families
- Think Family
- Addressing disproportionality
- Pressures on families including cost-of-living and impact of Covid-19
- Learning from reviews & embedding reforms

HAMD Pastoral Intervention offer:

Early Help is a variety of different interventions that we can offer your child whilst at school to help support them in overcoming any challenges that they may be facing. Issues such as: friendship issues, Self-Esteem, anxiety, emotional support, social skills, building resilience.

We are more than happy to discuss with you what intervention would be best for your child to support their social, emotional and physical wellbeing.

Level 1: In-house support:

- Careers Advisor
- Emotionally Based School Avoidance Support (EBSA)
- Emotional Literacy Support Assistants (ELSA)
- Emotional Regulation intervention
- Food parcels
- Uniform grant if entitled to Free School meals
- Hardship fund for school uniform and shoes.
- Lego based Therapy (Social Communication programme)
- One to one support
- Phone-calls home by Tutor/Faculty Coordinator
- Mediation between students /between a child and their parent
- Meetings by Tutor/Faculty Coordinator
- Music therapy for those students who are anxious – Delivering support during breaks through playing the piano and offering music for them to listen to at home/play at home. – Ms O’Leary
- Part-time Timetable (individual support for a pupil – tailored to meet their specific need)
- PSHE, SMSC and Wellbeing programme
- Medical cards
- Safe space in school
- Safety Plan: Initiate a plan to support the student to keep safe.
- Strengthening Minds /Life After Lockdown programme

- Team around the Child/Family meeting
- Truancy bus - support for parents who are struggling with their children who refuse to come to school in the morning.
- Welfare visits to family home

Provision by Mrs Clark:

- One to one support for a vulnerable student.
- Anger management and emotional regulation workshops.

Provision provided by the Student Referral Centre (SRC)

- Anger Management workshop
- Girls support Group (Anxiety/mental health)
- Football Beyond Borders intervention
- Individual Intervention Plan
- 'Loved Valued Able' programme to concentrate on self-esteem/managing emotions (small group work).
- One to one friendship support group.
- One to one support and advice sessions (Extended targeted sessions conducted with students completing long stay SRC)
- Pastoral Support Plan
- Peer mentoring
- Self-Esteem workshop
- Strengthening Minds programme (small group)
- Year 7 Transition programme – (small group work)

Level 2: Early help:

- Catch 22 - work with young people and families in trouble, providing early intervention, targeted and specialist support services to those in crisis, leaving care, missing from home or with substance misuse or mental health problems.
- Children Missing from Education
- Counsellor – in-house Catch22 service
- Education Wellbeing Practitioner for students struggling with low mood or anxiety.
- Family Wellbeing Service – Targeted Early help
- Free2B offer support to LGBTQ pupils and their families
- Glasshouse Project – for students with family members in prison or are victims of crime.
- Headlight Project – Delivering emotional resilience in schools.
- Jigsaw4u - bereavement and emotional support
- Life Course (London Fire brigade)
- Merton Medical Education Service (MMES) – for students struggling with significant medical or mental health needs.
- My Futures Team (support young people aged 13-19 in Merton at risk of becoming Not in Education, Employment or Training (NEET).
- Signpost families towards '**One stop Shop**' which is a confidential service for people experiencing domestic violence or abuse in Merton. Venue: Morden Baptist church – 9.30-12noon every Monday.
- Off the Record counselling service
- Parenting programme
- Piece of mind one to one support
- Rape and sexual abuse Support Centre (RASASC)
- School nurse – Elizabeth Opoku-Ware
- Social Worker in Schools Project **can offer support to any family residing in Merton.**
- Spectra (Sexual health and emotional wellbeing).

- Young Carers

Level 3:

- Referral to Children’s social care (CSC) for targeted intervention. Student placed on a Child in Need Plan
- Contextual Safeguarding Intervention: Child Sexual Exploitation, Child Criminal Exploitation, Missing, Serious Youth violence.
- Special Educational Needs and Disability (SEND):
- Educational Psychologist to consider whether an assessment of student’s SEND is required
- SENCo to complete an assessment for an Educational Health Care Plan (assessment of students SEND)
- Referral for a Speech and Language assessment
- Consultation with a CAMHS clinician for a student displaying mental health concerns.
- Referral to Child Adolescent Mental Health service (CAMHS) for a mental health or neurodevelopment assessment
- Youth Offending team intervention when a student receives a Youth referral order
- CAMHS crisis line number: 020 3228 5980 – Open between Monday -Friday 5 -11pm and Saturday – Sundays and Bank holidays 9am -11pm.

Level 4:

- Referral to (CSC) for targeted intervention requiring a student to be placed on a Child Protection Plan – DSL will attend every meeting on and off site. The student will be monitored closely, and the DSL will work as part of a multi-agency team to support the student and family.

Policy Principles & Values

The welfare of the child is paramount

Maintain an attitude of “It could happen here”

Children have a right to feel safe and secure, they cannot learn effectively unless they do so.

All children have a right to be protected from harm and abuse.

All staff have a role in the prevention of harm and abuse and an equal responsibility to act immediately on any suspicion or disclosure that may indicate a child is at risk of harm, either in the school or in the community, taking into account risks outside of the home, in accordance with statutory guidance.

All staff are aware that safeguarding incidents and/or behaviours can be associated with factors outside the school and/or can occur between children outside of school. All staff, but especially the DSLs will consider whether children are at risk of abuse or exploitation in situations outside of their families, recognising that extra-familial harms include, but are not limited to, sexual exploitation, criminal exploitation, and serious youth violence.

We acknowledge that working in partnership with other agencies protects children and reduces risk and so we will engage in partnership working to protect and safeguard children.

Whilst the school will work openly with parents as far as possible, it reserves the right to contact Social Care or the police, without notifying parents if this is believed to be in the child's best interests.

Policy Aims

To demonstrate the school's commitment about safeguarding and child protection to pupils, parents and other partners.

To raise the awareness of all teaching and non-teaching staff of their responsibilities to safeguard children through identifying and reporting possible cases of abuse.

To enable the school to effectively contribute to Early Help, assessments of need and support for those children.

To provide robust school systems and procedures that are followed by all members of the school community in cases of suspected abuse.

To develop and promote effective working relationships with other agencies, in particular Early Help providers, the Police, Health and Social Care.

To ensure that all staff working within our school who have substantial access to children have been checked as to their suitability, including verification of their identity, qualifications, and a satisfactory enhanced DBS check (according to KCSIE guidance), and a Single Central Record is kept for audit.

We comply with the Disqualification under the Childcare Act 2006 guidance issued in February 2015.

Supporting Children

We recognise that school may provide a safe place and the only stability in the lives of children who have been abused or who are at risk of harm.

We recognise that a child who is abused or witnesses abuse and/or violence may feel helpless and humiliated, may blame themselves, and find it difficult to develop and maintain a sense of self-worth.

We accept that research shows that the behaviour of a child in these circumstances may range from that which is perceived to be normal to aggressive or withdrawn.

Our school will support all children:

We will promote a caring, safe and positive environment within the school.

We will encourage self-esteem and self-assertiveness, through the curriculum and through positive relationships within the school community.

We will ensure children are taught to understand and manage risk through Relationships and Sex Education (RSE) and through all aspects of school life. This includes online safety and anti-bullying, road safety, pedestrian and cycle training. As well as focussed work in Year 6 to prepare for transition to Secondary school and more personal safety/independent travel.

We will respond sympathetically to any requests for time out to deal with distress and anxiety.

We will offer details of helplines, counselling or other avenues of external support.

We will liaise and work in partnership with other support services and agencies involved in Early Help and the safeguarding of children.

We will notify Social Care immediately if there is a significant concern.

We will provide continuing support to a child about whom there have been concerns who leaves the school by ensuring that information is shared under confidential cover to the child's new setting and ensure the school medical records are forwarded as a matter of priority.

We will encourage the use of strategies to encourage children to share concerns as well as access to ELSA. Children know who they can talk to if they do not feel safe.

We will reassure all children who are victims of abuse that they will be taken seriously and will be supported. They should never be made to feel ashamed or that they are creating a problem by reporting abuse, sexual violence, or sexual harassment.

We will ensure that following any safeguarding concern the child's wishes and feelings are taken into account when determining what action to take and what services to provide.

Prevention / Protection

We recognise that Harris Academy Morden plays a significant part in the prevention of harm by providing children with good lines of communication with trusted adults, supportive friends and an ethos of protection.

Harris Academy Morden will:

- Establish and maintain an ethos where children feel safe and secure, are encouraged to talk and are always listened to.
- Include regular consultation with children by listening to their voice and through questionnaires, PSHE programme, Tutor relationship, Student Council and asking students to report any concerns directly to school.
- Ensure that all children know there is and can access an adult in the school whom they can approach if they are worried or in difficulty.
- Include safeguarding across the curriculum, including opportunities which equip children with the skills they need to stay safe from harm and to know to whom they should turn for help.

Safe School, Safe Staff

We will ensure that:

The school operates safer recruitment procedures that includes statutory checks on staff suitability to work with children. Disqualification under the Childcare Act 2006 still applies to staff themselves. All staff have a responsibility to inform the school where their relationships and associations, both within and outside of the workplace (including online), may have implications for the safeguarding of children in the school. An enhanced DBS check is carried out for all new employees, staff have a responsibility to inform the Headteacher if their circumstances change whilst employed at the school. This statement is in the Staff Behaviour Policy, which all staff have signed and agreed to adhere to.

We will not accept a Curriculum Vitae (CV) unless alongside a full application form from anyone applying to work at this school. As part of our background checks we will conduct an online search for shortlisted candidates, and we will inform all shortlisted candidates about this.

Harris Academy Morden staff receive information about our safeguarding procedures, Behaviour Policy (code of conduct), Child Protection and Safeguarding Policy, the role and names of the Designated Safeguarding Lead and their deputy(s), and [Keeping Children Safe in Education 2023 part 1 and annex B](#). Part 2 of this guidance relates to “The Management of Safeguarding” and will be issued to all Governors. Any staff who do not directly work with children will be issued with Annex A of Keeping Children Safe in Education 2023.

All staff receive safeguarding training at induction (for example, via email, and staff meetings), as required. In addition, we deliver termly hot topic safeguarding update sessions for all staff.

All members of staff are trained in and receive regular updates in online safety.

All staff and governors have regular safeguarding awareness training, updated by the DSL as appropriate, to maintain their understanding of the signs and indicators of abuse.

The Child Protection and Safeguarding Policy is made available via the school website. Hard copies of this policy can be viewed by request from the school office.

We provide a coordinated offer of Early Help when additional needs of children are identified and contribute to early help arrangements and inter-agency working and plans.

We will seek to ensure the suitability of adults working with children on school sites at any time and this includes any persons or organisations using our buildings or outside spaces in a letting or hiring agreement.

Community users organising activities for children are aware of the school’s Child Protection and Safeguarding Policy, guidelines and procedures.

The name of the Designated Safeguarding Lead and deputy(s) are clearly advertised in the school with a statement explaining the school’s role in referring and monitoring cases of suspected harm and abuse.

Roles and Responsibilities

All School Staff:

All staff have a key role to play in identifying concerns and in providing help for children. To achieve this, they will:

- Provide a safe environment in which children can learn.
- Establish and maintain an environment where children feel secure, are encouraged to talk and are listened to.
- Ensure children know that there are adults in the school who they can approach if they are worried or have concerns.

- Plan opportunities within the curriculum for children to develop the skills they need to assess and manage risk appropriately and keep themselves safe.
- Attend training to be aware of, and alert to the signs of abuse.
- Maintain an attitude of “**it could happen here**” with regards to safeguarding.
- Know how to respond to a pupil who discloses or alleges harm or abuse following training of ‘Working together to Safeguard Children’ (2018), and ‘What to do if you are worried a child is being Abused’ (2015).
- Report their concerns to the DSL immediately and on that day if they are worried a child is being abused and record their concerns. If the DSL is not contactable immediately, a Deputy DSL should be informed.
- Be prepared to refer directly to the C&F hub and the police if there is a risk of significant harm and the DSL or their Deputy is not available.
- Follow the allegations procedures and inform the Principal if the disclosure is an allegation against a member of staff, supply staff or volunteer or is a low-level concern.
- Follow the procedures set out by the Merton Children’s Safeguarding Partnership and take account of guidance issued by the Department for Education.
- Treat information with confidentiality but never promising to “keep a secret”.
- Understand Early Help and be prepared to identify and support children who may benefit.
- Know who the DSL and Deputy DSL are and know how to contact them.
- Have an awareness of the role of the DSL, part 1 and annex B of Keeping Children Safe in Education 2023, the schools Child Protection & Safeguarding Policy, Staff Behaviour Policy (Code of Conduct), School Behaviour Policy, and procedures relating to the safeguarding response for children who go missing from education.
- All staff must be aware that they have a professional responsibility to share information with other agencies in order to safeguard children and that the Data Protection Act 1998 and General Data Protection Regulations are not a barrier to sharing information where a failure to do so would place a child at risk of harm. There is a lawful basis for child protection concerns to be shared with agencies who have a statutory duty for child protection.
- All staff must be aware that they cannot promise a child to keep secrets which might compromise the child’s safety or wellbeing. However, staff are aware that matters relating to child protection and safeguarding are personal to children and families, in this respect they are confidential and the Headteacher or DSLs will only disclose information about a child to other members of staff on a need-to-know basis.
- Staff should know how to manage the requirement to maintain an appropriate level of confidentiality. This means only involving those who need to be involved, such as the DSL (or a deputy) and children’s social care.

- Be mindful that the Teacher Standards states that teachers should safeguard children's wellbeing and maintain public trust in the teaching profession as part of their professional duties.
- Assist the Governing Body and Headteacher in fulfilling their safeguarding responsibilities set out in legislation and statutory guidance.

The Principal:

In addition to the role and responsibilities of all staff the Principal will ensure that:

- The school fully contributes to inter-agency working in line with Working Together to Safeguard Children 2018 guidance.
- The Child Protection and Safeguarding Policy and procedures are implemented and followed by all staff.
- All staff are aware of who the DSL is and their role.
- Sufficient time, training, support, funding, resources, is allocated to the DSL to carry out their role effectively, including the provision of advice and support to school staff on child welfare and child protection matters, to take part in strategy discussions/meetings and other inter-agency meetings and/or support other staff to do so; and to contribute to the assessment of children.
- Provide opportunities for a co-ordinated offer of Early Help when additional needs of children are identified
- Ensure Deputy DSLs are trained to the same standard as the DSL and the role is explicit in their job description.
- With the DSL ensure adequate and appropriate cover arrangements are in place for any out of hours/out of term activities.
- Where there is a safeguarding concern that the child's wishes, and feelings are considered when determining what action to take and what services to provide.
- Child-centred systems and processes are in place for children to express their views and give feedback.
- All staff feel able to raise concerns about poor or unsafe practice and that such concerns are handled sensitively and in accordance with the whistle-blowing procedures.
- That pupils are provided with opportunities throughout the curriculum to learn about safeguarding, including keeping themselves safe online.
- Ensure that allegations or concerns against staff, supply staff or volunteers are dealt with in accordance with guidance from Department for Education (DfE) and Merton Children Safeguarding Partnership.
- Ensure that statutory requirements are met to make a referral to the Disclosure and Barring Service and additionally in the case of teaching staff the Teacher Regulation Agency where an

individual has engaged in conduct that harmed (or is likely to harm) a child; or if the person otherwise poses a risk of harm to a child.

The Designated Safeguarding Lead:

In addition to the role and responsibilities of all staff the DSL will:

- Take the lead responsibility for child protection and wider safeguarding (including online safety and understanding the filtering and monitoring systems which are in place). Refer to DfE [Guidance Meeting digital and technology standards in schools and colleges - Filtering and monitoring standards for schools and colleges](#)
 - Will have an “**it could happen here**” approach to safeguarding.
 - Liaise with the local authority, the three safeguarding partners and work in partnership with other agencies in line with Working Together to Safeguard Children. National Police Chiefs Council guidance– When to call the police should help DSLs understand when they should consider calling the police and what to expect when they do.
 - encourage a culture of listening to children and taking account of their wishes and feelings, among all staff, and in any measures the school or college may put in place to protect them.
 - Report concerns that a child may be at risk of radicalisation or involvement in terrorism, following the Prevent Referral Process and use the Prevent Referral Form to refer cases by email. If the matter is urgent, the Police must be contacted by dialling 999. In cases where further advice from the Police is sought, dial 101.
 - The Department of Education has also set up a dedicated telephone helpline for staff and governors to raise concerns around Prevent (020 7340 7264).
1. Refer cases where a crime may have been committed to the Police as required.
 2. Liaise with the “case manager” and Local Authority Designated Officer for child protection concerns in cases which concern a member of staff or a volunteer; and refer cases where a person is dismissed or left service due to risk/harm to a child to the Disclosure and Barring Service and Teaching Regulation Agency, as required.
 3. Follow DfE and KCSIE 2023 guidance on ‘Child on child’ Abuse’ when a concern is raised that there is an allegation of a pupil abusing another pupil within the school.
 4. Be available during term time (during school hours) for staff in school to discuss any safeguarding concerns. Appropriate and adequate cover arrangements will be arranged by the DSL and the school leadership for any out of hours/term activities.
 5. Act as a source of support and expertise in carrying out safeguarding duties for the whole school community.
 6. Encourage and promote a culture of listening to children and taking account of their wishes and feelings, amongst all staff.

7. Access training and support to ensure they have the knowledge and skills required to carry out the role. DSL training should be updated at least every two years and knowledge and skills refreshed at regular intervals but at least annually.
8. Have a secure working knowledge of Merton Children's Safeguarding Partnership procedures and understand the assessment process for providing Early Help and statutory intervention, including the local authority levels of need criteria and referral arrangements. Have a clear understanding of access and referral to the Merton Early Help offer.
9. Liaise with school staff (especially pastoral support, behaviour leads, school health colleagues and the SENDCo) on matters of safety and safeguarding and consult the MCSP Levels of Need document to inform decision making and liaison with relevant agencies.
10. Be alert to the specific needs of children in need, those with SEND and young carers.
11. Understand the risks associated with online activity and be confident that they have the up-to-date knowledge and capability to keep children safe whilst they are online at school; in particular understand the additional risks that children with SEND face online and the associated and appropriate support they require.
12. Keep detailed, accurate records (either written or using appropriate secure online software), that includes all concerns about a child even if there is no need to make an immediate referral and the rationale for decisions made and action taken. Records also require a clear and comprehensive summary and details on how the concern was followed up and resolved.
13. Ensure that an indication of the existence of a Child Protection file is cross referenced on the pupil school file.
14. Ensure that when a pupil transfers school, their child protection file is passed to the new school and within statutory timescales (separately from the main pupil file and ensuring secure transit) and that confirmation of receipt is received.
15. Ensure that where a pupil transfers school and is on a Child Protection Plan or is a Looked After Child, their information is passed to the new school immediately, and that the child's social worker is informed. In addition, consideration should be given to a multi-agency schools transition meeting if the case is complex or on-going.
16. Work with the DSL team, Local Authority and Social Care Teams to make informed decisions in the best interests of the child, for instance the child's safety, educational outcomes and welfare. This should be a matter of routine. Furthermore, the social worker and the DSL need to work together to respond to unauthorised absences and promote welfare.
17. Help promote educational outcomes by sharing the information about the welfare, safeguarding and child protection issues that children, including children with a social worker, are experiencing, or have experienced, with teachers and SLT to ensure that relevant members of staff, know who these children are, understand their academic progress and attainment and maintain a culture of high aspirations for this cohort; supporting teaching staff to identify the challenges that children in this group might face and the additional academic support and adjustments that they could make to best support these children.
18. Ensure that the school will be included in statutory discussions in cases of Child-on-child abuse.

19. Report to the Principal any significant issues for example enquiries under section 47 of the Children's Act 1989 and police investigations.
20. Ensure that the case holding Social Worker is informed of any child currently with a Child Protection Plan who is absent without explanation.
21. This should include being aware of the requirement for children to have an Appropriate Adult. Guidance – [Police and Criminal Evidence Act 1984 Code C revised 2019](#) - Code of Practice for the detention, treatment and questioning of persons by Police Officers.
22. Ensure that all staff, within 3 months of employment and updated once a year thereafter, sign to say they have read, understood and agree to work within the school's Child Protection Policy, Staff Behaviour Policy (code of conduct), School Behaviour Policy and Keeping Children Safe in Education 2023 (KCSIE) Part 1 and annex B and ensure that the policies are used effectively.
23. Organise child protection and safeguarding induction, regularly updated training, following the training guidance published by the London Borough of Merton, Safeguarding in Schools Officer, and a minimum of annual updates (including online safety) for all school staff, keep a record of attendance and address any absences.
24. Ensure that in collaboration with the school leadership and governors, the Child Protection Policy is reviewed annually, and the procedures and implementation are updated and reviewed regularly.
25. Ensure that the Child Protection Policy is available publicly and that parents are aware that referrals about suspected harm and abuse will be made and the role of the school in this.
26. Establish and maintain links with the three safeguarding partners to make sure staff are aware of training opportunities and the latest policies on local safeguarding arrangements.
27. Will ensure that the name of the designated members of staff for Child Protection, the Designated Safeguarding Lead and deputies, are clearly advertised in the school, with a statement explaining the school's role in referring and monitoring cases of suspected abuse.
28. Ensure that the Single Central Record is compliant with Keeping Children Safe in Education 2023.
29. Meet all other responsibilities as set out for DSLs in Keeping Children Safe in Education 2023.

The Deputy Designated Safeguarding Lead(s):

- In addition to the role and responsibilities of all staff each Deputy DSL will:
- Be trained to the same standard as the Designated Safeguarding Lead and the role is explicit in their job description.
- Provide support and capacity to the DSL in carrying out delegated activities of the DSL; however, the lead responsibility of the DSL cannot be delegated.
- In the absence of the DSL, carries out the activities necessary to ensure the ongoing safety and protection of children. In the event of the long-term absence of the DSL the deputy will assume all the functions above.

All members of The Governing Body understand and fulfil their responsibilities to ensure that:

- They facilitate a whole school or college approach to safeguarding.
- Where there is a safeguarding concern, children's wishes, and feelings should be taken into account when determining what action to take and what services to provide. Systems should be well promoted, understood and easily accessible for children to confidently report abuse, knowing that their concerns will be treated seriously.
- The school has effective safeguarding policies and procedures including a Child Protection and Safeguarding Policy, a Staff Behaviour Policy or Code of Conduct, a Behaviour Policy and a response to children who go missing from education. Ensure policies are consistent with Merton Children's Safeguarding Partnership and statutory requirements, are reviewed annually and that the Child Protection policy is available on the school website.
- That the school operates safer recruitment procedures that include statutory checks on staff suitability to work with children and by ensuring that there is at least one person on every recruitment panel who has completed safer recruitment training.
- That at least one member of the governing body has completed safer recruitment training to be repeated every five years.
- Staff have been trained appropriately and this is updated in line with guidance and all staff have read Keeping Children Safe in Education (2023) part 1 and Annex B and that mechanisms are in place to assist staff in understanding and discharging their roles and responsibilities as set out in the guidance.
- The governing body will ensure that all staff undergo safeguarding and child protection training, including online safety training providing an understanding of the expectations and applicable roles and responsibilities in relation to filtering and monitoring.
- The governing body should consider the number and age range of children, those who are potentially at greater risk of harm and how often they access the IT system.
- There are effective procedures for dealing with allegations of Child-on-child abuse.
- All staff including temporary staff and volunteers are provided with the school's Child Protection and Safeguarding Policy and Staff Behaviour Policy.
- The school has procedures for dealing with allegations of abuse by staff including supply staff, Contractors, the Principal and Principal, volunteers working with children and that a referral is made to the DBS and/or the Teaching Regulation Agency (as applicable) if a person in regulated activity has been dismissed or removed due to safeguarding concerns.
- A nominated governor for safeguarding is identified.
- A member of the Senior Leadership Team has been appointed as the Designated Safeguarding Lead (DSL) who will take lead responsibility for safeguarding and child protection and that the role is explicit in the role holder's job description.

- On appointment, the DSL and deputies undertake DSL New to Role and then 'Update' training every two years as well as attending DSL network events and meetings.
- Children are taught about safeguarding (including online safety) as part of a broad and balanced curriculum covering relevant issues through relationships and sex education (RSE). We recognise that there cannot be a "one size fits all" style and there needs to be a personalised and contextualised approach for more vulnerable children, victims of abuse and those with Special Education Needs and Disabilities (SEND).
- The school will comply with regular data returns requested by the Local Authority, regarding all pupils, of statutory school age, attending alternative provision and/or on a reduced or modified timetable
- Appropriate online filtering and monitoring systems are in place. Governors will ensure that the Senior Leadership Team and relevant staff are aware of the systems, manage them effectively and know how to escalate concerns when identified.
- Enhanced DBS checks (without barred list checks, unless the governor is also a volunteer at the school) are in place for all Governors.
- Any weaknesses in Safeguarding are remedied immediately.
- The school is aware that OFSTED inspections will always report on whether arrangements for safeguarding children and learners are effective.
- The school will comply with The Human Rights Act 1998 setting out the fundamental rights and freedoms that everyone in the United Kingdom is entitled to. It is unlawful for schools to act in a way that is incompatible with the European Convention on Human Rights, specifically:
 1. Article 3: the right to freedom from inhuman and degrading treatment (an absolute right)
 2. Article 8: the right to respect for private and family life (a qualified right) includes a duty to protect individuals' physical and psychological integrity
 3. Article 14: requires that all of the rights and freedoms set out in the Act must be protected and applied without discrimination,
 4. Article 2: protects the right to education.
- The school will contravene the Equality Act 2010 by discriminating against pupils because of their sex, race, disability, religion or belief, gender reassignment, pregnancy and maternity, or sexual orientation (protected characteristics).

Multi-agency Working

Harris Academy Morden have a pivotal role to play in multi-agency safeguarding arrangements. The Governing Body, SLT and DSLs need to ensure that the school contributes to multi-agency working in line with statutory guidance Working Together to Safeguard Children 2018. New safeguarding partnerships and child death partner arrangements are now in place. Agencies will work together to safeguard and promote the welfare of children, including identifying and responding to their needs.

We will ensure that we will fully contribute to all social care assessments concerning students/ pupils at this school.

Confidentiality and Sharing Information

All matters relating to child protection will be treated as confidential and only shared as per the [‘Information Sharing Advice for Practitioners’ \(DfE 2018\) guidance](#).

Information will be shared with staff within the school who ‘need to know’.

All staff must be aware that they have a professional responsibility to share information with other agencies in order to safeguard children and that the Data Protection Act 1998 and General Data Protection Regulations are not a barrier to sharing information where a failure to do so would place a child at risk of harm. There is a lawful basis for safeguarding concerns to be shared with agencies who have a statutory duty for child protection.

All staff must also be aware of the provisions in the school’s current Data Protection and Subject Access Request Policy.

All staff must be aware that they cannot promise a child to keep secrets which might compromise the child’s safety or wellbeing. However, staff are aware that matters relating to child protection and safeguarding are personal to children and families and in this respect are confidential and the Headteacher or DSLs will only disclose information about a child to other members of staff on a need to know basis.

All staff will always undertake to share our intention to refer a child to Social Care with their parents /carers consent unless to do so could put the child at greater risk of harm or impede a criminal investigation.

Allegations against adults who work with children

Procedure: Keeping Children Safe in Education 2023 part 4 has 2 sections.

Section 1 deals with allegations against staff which meets the threshold of being investigated by the Local Authority Designated Officer (LADO).

This procedure must be used in all cases in which it is alleged a member of staff, supply staff or volunteer in a school, or another adult who works with children has:

- *behaved in a way that has harmed a child or may have harmed a child.*
- *possibly committed a criminal offence against or related to a child.*
- *behaved towards a child or children in a way that indicates he or she would pose a risk of harm to children; or*
- *behaved or may have behaved in a way that indicates they may not be suitable to work with children.*

In dealing with allegations or concerns against an adult, staff must:

Who is the Allegation About	Who to Report The Issue To
Assistant Director Lee Mallin	Rebecca Hickey Director of Secondary Education
Principal Julian Sparks	Assistant Director Lee Mallin
A Staff Member	Principal Julian Sparks
A Student	Designated Safeguarding Lead Lynn Edwards

- Report any concerns about the conduct of any member of staff, supply staff or volunteer to the Principal immediately.
- If an allegation is made against the Head of Academy, the concerns need to be raised with Julian Sparks Principal as soon as possible.
- There may be situations when the Principal will want to involve the police immediately if the person is deemed to be an immediate risk to children or there is evidence of a possible criminal offence.
- Once an allegation has been received by the Principal they will contact the LADO immediately and before taking any action or investigation.
- Following consultation with the LADO inform the parents of the allegation unless there is a good reason not to.

In liaison with the LADO, the school will determine how to proceed and if necessary, the LADO will refer the matter to Children’s Social Care via the C&F hub and/or the police.

When using an agency for supply staff, the school will inform the agency of its process for managing allegations.

Where an allegation is made against a member of supply staff, the Headteacher will immediately contact both the agency concerned and the LADO. The school will ensure that any allegations are dealt with appropriately and liaise with relevant parties. The school will continue to support any investigation that is required.

Section 2 of part 4 of Keeping Children Safe in Education 2023 deals with low level concerns. These will not be treated as insignificant but will require a report to the Headteacher and/ or DSL or the LADO. If the low-level concern is reported to the DSL, then the DSL will inform the Headteacher in a timely fashion according to the nature of the concern who will make the ultimate decision on how to respond.

Low-level concerns which are shared about supply staff and contractors should be notified to their employers, so that any potential patterns of inappropriate behaviour can be identified.

A low-level concern is any concern, no matter how small, and even if no more than causing a sense of unease or a 'nagging doubt' - that an adult working in or on behalf of the school or college may have acted in a way that is inconsistent with the staff code of conduct, including inappropriate conduct outside of work.

Examples of such behaviour could include, but are not limited to:

- being over friendly with children,
- having favourites,
- taking photographs of children on their mobile phone,
- engaging with a child on a one-to-one basis in a secluded area or behind a closed door, or,
- using inappropriate sexualised, intimidating, or offensive language.

The purpose of this policy is to create and embed a culture of openness, trust and transparency in which the school's or college's values and expected behaviour which are set out in the staff code of conduct are constantly lived, monitored and reinforced by all staff.

Low-level concerns about a member of staff should be reported to Julian Sparks Principal. Where a low-level concern is raised about the Principal, it should be shared with Lee Mallin, Assistant Director.

If there is any doubt whether the information shared about a member of staff, supply staff or contractor then they must consult the Local Authority Designated Officer (LADO).

If a report is determined to be unsubstantiated, unfounded, false or malicious, the Designated Safeguarding Lead should consider whether the child and/or the person who has made the allegation is in need of help or may have been abused by someone else and this is a cry for help. In such circumstances, a referral to children's social care may be appropriate.

If a report is shown to be deliberately invented or malicious, we will consider whether any disciplinary action is appropriate against the individual who made it as per our behaviour policy.

Schools may receive an allegation relating to an incident that happened when an individual or organisation was using their school premises for the purposes of running activities for children (e.g., Community groups, sports associations or service providers that run extra-curricular activities). As with any safeguarding allegation, schools should follow their safeguarding policies and procedures, including informing the LADO.

What is child abuse?

The following definitions are taken from *Working Together to Safeguard Children* HM Government (2018). In addition to these definitions, children can also be abused by being sexually or criminally exploited, honour-based abuse, forced marriage or female genital mutilation.

What is abuse and neglect?

Abuse and neglect are forms of maltreatment of a child. Somebody may abuse or neglect a child by inflicting harm, or by failing to act to prevent harm. Children may be abused in a family or in an institutional or community setting, by those known to them or, more rarely, by a stranger. They may be abused by an adult or adults, or another child or children.

Emotional abuse

Keeping children safe in education 2023 defines '**Emotional abuse**' as: The persistent emotional maltreatment of a child such as to cause severe and persistent adverse effects on the child's emotional development.

It may involve conveying to a child that they are worthless or unloved, inadequate, or valued only insofar as they meet the needs of another person. It may include not giving the child opportunities to express their views, deliberately silencing them or 'making fun' of what they say or how they communicate. It may feature age or developmentally inappropriate expectations being imposed on children.

These may include interactions that are beyond a child's developmental capability, as well as overprotection and limitation of exploration and learning, or preventing the child participating in normal social interaction. It may involve seeing or hearing the ill-treatment of another.

It may involve serious bullying (including cyber bullying), causing children frequently to feel frightened or in danger, or the exploitation or corruption of children. Some level of emotional abuse is involved in all types of maltreatment of a child, although it may occur in isolation.

Most harm is produced in *low warmth, high criticism* homes, not from single incidents.

Emotional abuse is difficult to define, identify/recognise and/or prove.

Emotional abuse is chronic and cumulative and has a long-term impact.

All kinds of abuse and neglect have emotional effects although emotional abuse can occur by itself.

Children can be harmed by witnessing someone harming another person – as in domestic abuse.

It is sometimes possible to spot emotionally abusive behavior from parents and carers to their children, by the way that the adults are speaking to, or behaving towards children. An appropriate challenge or intervention could affect positive change and prevent more intensive work being carried out later.

Indicators of emotional abuse

Developmental issues

- Delays in physical, mental and emotional development
- Poor school performance
- Speech disorders, particularly sudden disorders or changes.

Behaviour

- Acceptance of punishment which appears excessive
- Over-reaction to mistakes
- Continual self-deprecation (I'm stupid, ugly, worthless etc)
- Neurotic behaviour (such as rocking, hair-twisting, thumb-sucking)
- Self-mutilation
- Suicide attempts
- Drug/solvent abuse
- Running away
- Compulsive stealing, scavenging

- Acting out
- Poor trust in significant adults
- Regressive behaviour – e.g., wetting
- Eating disorders
- Destructive tendencies
- Neurotic behaviour
- Arriving early at school, leaving late

Social issues

- Withdrawal from physical contact
- Withdrawal from social interaction
- Over-compliant behaviour
- Insecure, clinging behaviour
- Poor social relationships

Emotional responses

- Extreme fear of new situations
- Inappropriate emotional responses to painful situations (“I deserve this”)
- Fear of parents being contacted
- Self-disgust
- Low self-esteem
- Unusually fearful with adults
- Lack of concentration, restlessness, aimlessness
- Extremes of passivity or aggression

Physical abuse

Keeping children safe in education 2023 defines ‘**Physical abuse**’ as: a form of abuse which may involve hitting, shaking, throwing, poisoning, burning or scalding, drowning, suffocating, or otherwise causing physical harm to a child. Physical harm may also be caused when a parent or carer fabricates the symptoms of, or deliberately induces, illness in a child.

Most children collect cuts and bruises quite routinely as part of the rough and tumble of daily life. Clearly, it is not necessary to be concerned about most of these minor injuries. But accidental injuries normally occur on the *bony prominences* – e.g. knees, shins.

Injuries on the *soft* areas of the body are more likely to be inflicted intentionally and should therefore make us more alert to other concerning factors that may be present.

A body map can assist in the clear recording and reporting of physical abuse. The body map should only be used to record observed injuries and no child should be asked to remove clothing by a member of staff of the school.

Indicators of physical abuse / factors that should increase concern

- Multiple bruising or bruises and scratches (especially on the head and face)
- Clusters of bruises – e.g., fingertip bruising (caused by being grasped)
- Bruises around the neck and behind the ears – the most common abusive injuries are to the head
- Bruises on the back, chest, buttocks, or on the inside of the thighs

- Marks indicating injury by an instrument – e.g., linear bruising (stick), parallel bruising (belt), marks of a buckle
- Bite marks
- Deliberate burning may also be indicated by the pattern of an instrument or object – e.g., electric fire, cooker, cigarette
- Scalds with upward splash marks or *tide marks*
- Untreated injuries
- Recurrent injuries or burns
- Bald patches.

In the context of the school, it is normal to ask about a noticeable injury. The response to such an enquiry is generally light-hearted and detailed. So, most of all, concern should be increased when:

- the explanation given does not match the injury
- the explanation uses words or phrases that do not match the vocabulary of the child (adult's words)
- no explanation is forthcoming
- the child (or the parent/carer) is secretive or evasive
- the injury is accompanied by allegations of abuse or assault

You should be concerned if a child:

- is reluctant to have parents/carers contacted
- runs away or shows fear of going home
- is aggressive towards themselves or others
- flinches when approached or touched
- is reluctant to undress to change clothing for sport
- wears long sleeves during hot weather
- is unnaturally compliant in the presence of parents/carers.
- has a fear of medical help or attention
- admits to a punishment that appears excessive.

Sexual abuse

Keeping children safe in education 2023 defines '**Sexual abuse**' as: involves forcing or enticing a child or young person to take part in sexual activities, not necessarily involving violence, whether or not the child is aware of what is happening.

The activities may involve physical contact, including assault by penetration (for example rape or oral sex) or non-penetrative acts such as masturbation, kissing, rubbing, and touching outside of clothing. They may also include non-contact activities, such as involving children in looking at, or in the production of, sexual images, watching sexual activities, encouraging children to behave in sexually inappropriate ways, or grooming a child in preparation for abuse. Sexual abuse can take place online, and technology can be used to facilitate offline abuse.

Sexual abuse is not solely perpetrated by adult males. Women can also commit acts of sexual abuse, as can other children. The sexual abuse of children by other children is a specific safeguarding issue (also known as Child-on-child abuse) in education and all staff should be aware of it and of their school or college's policy and procedures for dealing with it,

Child Sexual Exploitation is seen as a separate category of sexual abuse.

Characteristics of child sexual abuse:

- it is often planned and systematic – people do not sexually abuse children by accident, though sexual abuse can be opportunistic
- grooming the child – people who abuse children take care to choose a vulnerable child and often spend time making them dependent (this may occur online)
- grooming the child's environment – abusers try to ensure that potential adult protectors (parents and other carers especially) are not suspicious of their motives.

Most people who sexually abuse children are men, but some women sexually abuse too.

Indicators of sexual abuse

Physical observations:

- Damage to genitalia, anus or mouth
- Sexually transmitted diseases
- Unexpected pregnancy, especially in noticeably young girls
- Soreness in genital area, anus or mouth and other medical problems such as chronic itching
- Unexplained recurrent urinary tract infections and discharges or abdominal pain

Behavioural observations:

- Sexual knowledge inappropriate for age
- Sexualised behaviour or affection inappropriate for age
- Sexually inappropriate behaviour
- Hinting at sexual activity
- Inexplicable decline in education progress
- Depression or other sudden apparent changes in personality as becoming insecure
- Lack of concentration, restlessness, aimlessness
- Socially isolated or withdrawn
- Overly compliant behaviour
- Acting out, aggressive behaviour
- Poor trust or fear concerning significant adults
- Regressive behaviour,
- Onset of wetting, by day or night; nightmares
- Arriving early at school, leaving late, running away from home
- Suicide attempts, self-mutilation,
- Suddenly drawing sexually explicit pictures
- Eating disorders or sudden loss of appetite or compulsive eating
- Regressing to younger behaviour patterns such as thumb sucking or bringing out discarded cuddly toys
- Become worried about clothing being removed
- Trying to be 'ultra-good' or perfect; overreacting to criticism.

Neglect

Keeping children safe in education 2023 defines '**Neglect**' as: the persistent failure to meet a child's basic physical and/or psychological needs, likely to result in the serious impairment of the child's health or development.

Neglect may occur during pregnancy as a result of maternal substance abuse. Once a child is born, neglect may involve a parent or carer failing to:

- provide adequate food, clothing and shelter (including exclusion from home or abandonment)

- protect a child from physical and emotional harm or danger
- ensure adequate supervision (including the use of inadequate caregivers)
- ensure access to appropriate medical care or treatment

It may also include neglect of, or unresponsiveness to, a child's basic emotional needs.

Neglect is a lack of parental care, but poverty and lack of information or adequate services can be contributory factors.

Far more children are registered to the category of neglect on Child in Need and Child Protection plans than to the other categories. As with abuse, the number of children experiencing neglect is likely to be much higher than the numbers on the plans.

Neglect can include parents or carers failing to:

- provide adequate food, clothing and shelter
- protect a child from physical and emotional harm or danger
- ensure adequate supervision or stimulation
- ensure access to appropriate medical care or treatment

NSPCC research has highlighted the following examples of the neglect of children under 12 years old:

- frequently going hungry
- frequently having to go to school in dirty clothes
- regularly having to look after themselves because of parents being away or having problems such as drug or alcohol misuse
- being abandoned or deserted
- living at home in dangerous physical conditions
- not being taken to the doctor when ill
- not receiving dental care.

Neglect is a difficult form of abuse to recognise and is often seen as less serious than other categories. It is, however, very damaging: children who are neglected often develop more slowly than others and may find it hard to make friends and fit in with their peer group.

Neglect is often noticed at a stage when it does not pose a risk to the child. The duty to safeguard and promote the welfare of children (*What to do if You're Worried a Child is Being Abused* DfE 2015) would suggest that an appropriate intervention or conversation at this early stage can address the

issue and prevent a child continuing to suffer until it reaches a point when they are at risk of harm or in significant need.

Neglect is often linked to other forms of abuse, so any concerns school staff must be discussed with the DSL.

It is important to recognise that indicators alone cannot confirm whether a child is being abused. Each child should be seen in the context of their family and wider community and a proper assessment carried out by appropriate persons. What is important to keep in mind is that if you feel unsure or concerned, do something about it. Don't keep it to yourself.

Physical indicators of neglect

- Constant hunger and stealing food
- Poor personal hygiene - unkempt, dirty or smelly
- Underweight
- Dress unsuitable for weather
- Poor state of clothing
- Illness or injury untreated

Behavioural indicators of neglect

- Constant tiredness
- Frequent absence from school or lateness
- Missing medical appointments
- Isolated among peers
- Frequently unsupervised
- Stealing or scavenging, especially food
- Destructive tendencies
- Poor attachment to caregivers and emerging mental health difficulties

Child on Child Abuse (now incorporated into part 5 of Keeping Children Safe in Education 2023)

Child-on-child Abuse

In most instances, the conduct of pupils towards each other will be covered by our behaviour policy. However, some allegations may be of such a serious nature that they may raise safeguarding concerns. We understand that children can abuse their peers.

The forms of Child-on-child abuse are outlined below:

- Bullying (including cyberbullying, prejudice-based and discriminatory bullying).
- Abuse in intimate personal relationships between peers.
- Physical abuse which can include hitting, kicking, shaking, biting, hair pulling, or otherwise causing physical harm.
- Sexual Violence and Sexual Harassment.
- Consensual and non-consensual sharing of nudes and semi-nude images and/or videos (also known as sexting or youth produced sexual imagery).
- Causing someone to engage in sexual activity without consent, such as forcing someone to strip, touch themselves sexually, or to engage in sexual activity with a third party.

- Upskirting which typically involves taking a picture under a person's clothing without their permission, with the intention of viewing their genitals or buttocks to obtain sexual gratification, or cause the victim humiliation, distress, or alarm.
- initiation/hazing type violence and rituals.

The term Child-on-child abuse can refer to all these definitions and a child may experience one or multiple facets of abuse at any one time. Therefore, our response will cut across these definitions and capture the complex web of their experiences.

There are also different gender issues that can be prevalent when dealing with Child-on-child abuse (i.e. girls being sexually touched/assaulted, or boys being subjected to initiation/hazing type violence). It is more likely that girls will be victims and boys' perpetrators, but that all Child-on-child abuse is unacceptable and will be taken seriously.

We believe that all children have a right to attend school and learn in a safe environment. Children should be free from harm by adults and other children in school.

It will not be passed off as 'banter', 'boys being boys' or 'part of growing up', and staff will challenge inappropriate behaviour between children. Any downplaying of certain conduct can lead to a culture of unacceptable behaviour which will lead to children not reporting or normalising abuse causing an unsafe environment. We are clear that there will be a zero-tolerance approach to any form of abuse including Child-on-child abuse.

This school understands that even if there are no reports of Child-on-child abuse, this does not mean that it is not happening.

We will minimise the risk of Child-on-child abuse by: -

- Taking a whole school approach to safeguarding & child protection through our safeguarding curriculum.
- All staff being trained and highly vigilant and aware of specific characteristics which may indicate Child-on-child abuse, for example, vulnerability and controlling behaviour.
- Providing a values-based curriculum, underpinned by the school's behaviour policy and pastoral support, and by a planned programme of evidence-based content delivered through the curriculum.
- Working in partnership with parents and carers.
- Engaging with specialist support and interventions.

Responding to reports of Sexual Violence and Sexual Harassment

At Harris Academy Morden there is a separate document in place setting out our Sexual Misconduct processes and procedures. This must be read in conjunction with this Policy.

- Children making a report of sexual violence or sexual harassment will be taken seriously, kept safe and be well supported.

- In some cases, children will find it difficult to tell staff about the abuse so it may come via a third party. Children should never be given the impression that they are creating a problem by reporting sexual abuse or harassment.
- We will carefully listen to the child, being non-judgemental.
- Staff taking the report will inform the DSL or a Deputy DSL immediately.
- Staff taking a report will never promise confidentiality.
- Parents or carers should usually be informed (unless this would put the child at greater risk).
- If a child is at risk of harm, is in immediate danger, or has been harmed, a referral will be made to the C&F hub.

Action: The DSL will consider: -

- The wishes of the victim.
- The nature of the incident including whether a crime has been committed and the harm caused.
- Ages of the children involved.
- Developmental stages of the children.
- Any power imbalance between the children.
- Any previous incidents.
- Ongoing risks.
- Other related issues or wider context.

Options:

- Manage internally
- Early Help intervention
- Refer to the C&F hub
- Report to the police all cases of sexual violence (generally in parallel with a referral to C&F hub)

Risk Assessment:

Following a report, the DSL will make an immediate risk and needs assessment on a case-by-case basis.

The risk assessment will consider:

- The victim, especially their protection and support.
- The alleged perpetrator, their support needs and any sanction action.
- All other children at the school.
- The victim and the alleged perpetrator sharing classes and space at school.
- The risk assessment will be recorded and kept under review.

Where there has been other professional intervention and/or other specialist risk assessments, these professional assessments will be used to inform the school's approach to supporting and protecting pupils.

Ongoing Response:

The DSL will manage each case individually and will ensure the risk assessment is reviewed regularly with relevant partner agencies, for example the Police and Merton Children's Services.

Where there is a criminal investigation into a rape, assault by penetration or sexual assault, the alleged perpetrator should be removed from any classes they share with the victim.

The DSL will consider how best to keep the victim and perpetrator a reasonable distance apart on school premises and on transport where appropriate.

Where a criminal investigation into a rape or assault by penetration leads to a conviction or caution, the school will take suitable action. In all but the most exceptional of circumstances, the rape or assault is likely to constitute a serious breach of sanction and may lead to the view that allowing the perpetrator to remain in the same school or college would seriously harm the education or welfare of the victim (and potentially themselves and other pupils).

We will reassure children that the law is in place to protect rather than to criminalise them.

Where a criminal investigation into sexual assault leads to a conviction or caution, Harris Academy Morden will consider any suitable sanctions considering their behaviour policy, which may include consideration of permanent exclusion. Where the perpetrator is going to remain in school, the Principal should continue keeping the victim and perpetrator in separate classes and continue to consider the most appropriate way to manage potential contact on school and college premises and transport. The nature of the conviction or caution and wishes of the victim will be especially important in determining how to proceed in such cases.

The victim, alleged perpetrator and any other affected children and adults will receive appropriate support and safeguards on a case-by-case basis.

The school will take any disciplinary action against the alleged perpetrator in accordance with the school behaviour policy.

The school recognises that taking disciplinary action and providing appropriate support are not mutually exclusive actions and will occur at the same time if necessary.

Physical Abuse

While a clear focus of Child-on-child abuse is around sexual abuse and harassment, physical assaults and initiation violence and rituals from pupils to pupils can also be abusive. These are equally not tolerated and if it is believed that a crime has been committed, will be reported to the police. The principles from the anti-bullying policy will be applied in these cases, with recognition that any police investigation will need to take priority.

References:

[DfE Keeping Children Safe in Education 2023](#)

Harmful Sexual Behaviour

Children's sexual behaviour exists on a wide continuum, from normal and developmentally expected to inappropriate, problematic, abusive and violent. Problematic, abusive and violent sexual behaviour is developmentally inappropriate and may cause developmental damage. A useful umbrella term is "harmful sexual behaviour" (HSB). The term has been widely adopted in child protection and is used in Keeping Children Safe in Education 2023. HSB can occur online and/or face to face and can also occur simultaneously between the two. HSB should be considered in a child protection context.

Sexual behaviour between children will be considered harmful if one of the children is much older if there is more than 2 years difference in age or one child is in puberty and the other is not. A younger child can abuse an older child, particularly if one has power over the other, for example, with a disability or Special educational Needs.

Children displaying HSB have often experienced their own abuse and trauma. It is important that they are offered appropriate support.

Anti-Bullying/Cyberbullying

Our school policy on anti-bullying is set out in a separate document and acknowledges that to allow or condone bullying may lead to consideration under child protection procedures.

We keep a record of known bullying incidents which is shared with and analysed by the governing body. All staff are aware that children with SEND and/or differences/ perceived differences are more susceptible to being bullied/victims of child abuse.

When there is 'reasonable cause to suspect that a child is suffering, or is likely to suffer, significant harm' a bullying incident should be addressed as a child protection concern. If the anti-bullying procedures are seen to be ineffective, the Principal and the DSL will also consider child protection procedures.

PHSE education regularly provides opportunities for children to understand bullying is wrong, its impact and how to deal with it.

Children who are Lesbian, Gay, Bisexual, or Transexual (LGBT)

The fact that a child or a young person may be LGBT is not in itself an inherent risk factor for harm. However, children who are LGBT can be targeted by other children. In some cases, a child who is

perceived by other children to be LGBT (whether they are or not) can be just as vulnerable as children who identify as LGBT.

Risks can be compounded where children who are LGBT lack a trusted adult with whom they can be open. Harris Academy Morden will provide a safe space for them to speak out or share their concerns with members of staff.

LGBT inclusion is part of the statutory Relationships Education, Relationship and Sex Education and Health Education curriculum and there is a range of support available to help schools counter homophobic, biphobia and transphobic bullying and abuse.

Online Safety

In September 2023 Keeping Children Safe in Education stated that all staff should receive appropriate safeguarding and child protection training (including online safety which, amongst other things, includes an understanding of the expectations, applicable roles and responsibilities in relation to filtering and monitoring at induction.

We know that filtering and monitoring systems provide a safe environment to learn and work by protecting pupils and staff from harmful and inappropriate content online. All staff are aware that they need to follow our safeguarding procedures, report any concerns immediately and monitor what is happening in their classroom on students' screens.

We follow the 'Teaching online safety in school' Guidance supporting schools to teach their pupils how to stay safe online, within new and existing school subjects ([Teaching Online Safety in Schools, June 2019](#)) to guide practice.

Children increasingly use electronic equipment, including at home, on a daily basis to access the internet, share and view content and images via social media sites such as Facebook, Twitter, Instagram, Snapchat and Tiktok and for online gaming.

Some adults and other children use these technologies to harm children. The harm might range from sending hurtful or abusive texts or emails, to grooming and enticing children to engage in extremist or sexual behaviour such as webcam photography or face-to-face meetings.

Pupils may also be distressed or harmed by accessing inappropriate material such as pornographic websites or those which promote extremist behaviour, criminal activity, suicide or eating disorders.

Pupils are taught about online safety throughout the curriculum and all staff have received filter and monitoring training, Harris Federation ensure that every member of staff receive training in cyber security at regular intervals throughout the year. The Designated Safeguarding Lead (DSL) is the lead for Online Safety.

The governing body ensure that appropriate filters and monitoring systems are in place in accordance with the guidance [Filtering and Monitoring standards for Schools and Colleges](#) This is to ensure that children have access to 'safe' information and that 'over blocking' does not restrict access to their learning. Government supported online safety websites provide information to support governing bodies to keep children safe online (including when children are at home). Please see below list of links on the section entitled **Further advice on safeguarding and child protection is available** for guidance and information.

A filtering monitoring system for students accessing our I.T. system on and off site is in place using a program from Securus. The DSL will be notified of any safeguarding concerns that need immediate action by Securus on the day that the incident occurs.

Staff may lawfully search electronic devices, without consent or parental permission, if there is a suspicion that the pupil has a device prohibited by school rules, or the staff member has good reason to suspect the device may be used to:

- cause harm,
- disrupt teaching,
- break school rules,
- commit an offence,
- cause personal injury, or
- damage property.

Any data, files or images that are believed to be illegal must be passed to the police as soon as practicable, including pornographic images of children, without deleting them.

Any data, files or images that are not believed to be unlawful, may be deleted or kept as evidence of a breach of the school's behaviour policy. The school follows DFE ['Searching, screening and confiscation at school'](#) guidance.

HAMD Filter and monitoring procedures:

- DSL takes lead responsibility for filter and monitoring reports and any safeguarding concerns.
 - All staff report any concerns via On-Call
 - SLT review the effectiveness of our systems and oversee the tracking process.
 - The DSL will update the Governing Body at every meeting in regard to this subject
 - Securus is our I.T. service provider and have technical responsibility for maintaining and managing our system. Securus have thousands of words in their library around key areas to include bullying, drugs, eating disorders, gaming, gangs, grooming, mental health, porn, radicalisation and self-harm.
1. We monitor our student's on-line use whilst they are using their Harris log-in either on or off site.
 2. All students have been informed that they are being monitored for any inappropriate online use via the Daily Messaging Board.
 3. We receive an alert for level 4 or 5 concerns within 30 minutes of the student completing the search. Securus monitor Level 1-3 concerns and escalate to school (4-5 concerns) as necessary.
 4. The student is spoken to and completes a statement; if the pupil denies the search, we look at CCTV unless there are exceptional circumstances (student new to the UK).
 5. A sanction is issued for any misuse of the school I.T. system.
 6. If the breach includes adult material the pupil is added to the sexual misconduct register i.e. searching for a porn site, this will be recorded in the students profile and a telephone call home will be made.
 7. We track all Securus alerts and monitor for trends.

Racist Incidents

Our behaviour policy includes racist incidents and acknowledges that repeated racist incidents or a single serious incident may lead to consideration under child protection procedures. We keep a record of racist incidents which are reported to the LEA.

Radicalisation and Extremism

[The Prevent Duty for England and Wales \(2015\)](#) under section 26 of the Counterterrorism and Security Act 2015 places a duty on education and other children's services to have due regard to the need to prevent people from being drawn into terrorism.

Extremism is defined as 'vocal or active opposition to fundamental British values, including democracy, the rule of law, individual liberty and mutual respect and tolerance of different faiths and beliefs'. We also include in our definition of extremism calls for the death of members of our armed forces, whether in this country or overseas. ([Revised Prevent Duty Guidance for England and Wales 10 April 2019](#)).

Some children are at risk of being radicalised; adopting beliefs and engaging in activities which are harmful, criminal or dangerous. This can happen both online and offline.

The school is clear that exploitation of vulnerable children and radicalisation should be viewed as a safeguarding concern and follows the Department for Education guidance for schools and childcare providers on preventing children and young people from being drawn into terrorism.

The school seeks to protect children and young people against the messages of all violent extremism including, but not restricted to, those linked to Islamist ideology, or to Far Right / Neo Nazi / White Supremacist ideology, Irish Nationalist and Loyalist paramilitary groups, and extremist Animal Rights movements.

School staff receive training to help identify early signs of radicalisation and extremism.

Opportunities are provided in the curriculum to enable pupils to discuss issues of religion, ethnicity and culture and the school follows the [DfE advice Promoting Fundamental British Values as part of SMSC \(spiritual, moral, social and cultural education\) in Schools \(2014\)](#).

Governors, the Principal and the Designated Safeguarding Lead (DSL) will assess the level of risk within the school and put actions in place to reduce that risk. Risk assessment may include due diligence checks for external speakers and private hire of facilities, anti-bullying policy and other issues specific to the school's profile, community and philosophy.

When any member of staff has concerns that a pupil may be at risk of radicalisation or involvement in terrorism, they should speak with the DSL in the first instance.

They should then follow the safeguarding procedures and refer cases by e-mail to the C&F hub. If the matter is urgent then Police must be contacted by dialling 999. In cases where further advice from the Police is sought dial 101 or contact the Anti-terrorism hotline on 0800 789 321

The Department for Education has also set up a dedicated telephone helpline for staff and governors to raise concerns around Prevent (020 7340 7264).

Indicators of vulnerability to radicalisation

Radicalisation refers to the process by which a person comes to support terrorism and forms of extremism leading to terrorism.

Extremism is defined by the Crown Prosecution Service as:

- The demonstration of unacceptable behaviour by using any means or medium to express views which:
- Encourage, justify or glorify terrorist violence in furtherance of beliefs.
- Seek to provoke others to terrorist acts.
- Encourage other serious criminal activity or seek to provoke others to serious criminal acts; or
- Foster hatred which might lead to inter-community violence in the UK.

There is no such thing as a “typical extremist”: those who become involved in extremist actions come from a range of backgrounds and experiences, and most individuals, even those who hold radical views, do not become involved in violent extremist activity.

Pupils may become susceptible to radicalisation through a range of social, personal and environmental factors - it is known that violent extremists exploit vulnerabilities in individuals to drive a wedge between them and their families and communities. It is vital that school staff can recognise those vulnerabilities.

Indicators of vulnerability include:

- Identity Crisis – the student / pupil is distanced from their cultural / religious heritage and experiences discomfort about their place in society.
- Personal Crisis – the student / pupil may be experiencing family tensions; a sense of isolation; and low self-esteem; they may have dissociated from their existing friendship group and become involved with a new and different group of friends; they may be searching for answers to questions about identity, faith and belonging;
- Personal Circumstances – migration; local community tensions; and events affecting the student / pupil’s country or region of origin may contribute to a sense of grievance that is triggered by personal experience of racism or discrimination or aspects of Government policy.
- Unmet Aspirations – the student / pupil may have perceptions of injustice or a feeling of failure,
- Experiences of Criminality – which may include involvement with criminal groups, imprisonment, and poor resettlement / reintegration.
- Special Educational Needs and Disability – students / pupils may experience difficulties with social interaction, empathy with others, understanding the consequences of their actions and awareness of the motivations of others.

However, this list is not exhaustive, nor does it mean that all young people experiencing the above are at risk of radicalisation for the purposes of violent extremism.

More critical risk factors could include:

- Being in contact with extremist recruiters.
- Accessing violent extremist websites, especially those with a social networking element.
- Possessing or accessing violent extremist literature.
- Using extremist narratives and a global ideology to explain personal disadvantage.
- Justifying the use of violence to solve societal issues.
- Joining or seeking to join extremist organisations; and
- Significant changes to appearance and / or behaviour.

- Experiencing a high level of social isolation resulting in issues of identity crisis and / or personal crisis.

Domestic Abuse

Domestic abuse represents one quarter of all violent crime. It is actual or threatened physical, emotional, financial, psychological or sexual abuse. It involves the use of power and coercive control by one person over another. It occurs regardless of race, ethnicity, gender, class, sexuality, age, religion, mental or physical ability. Domestic abuse can also involve other types of abuse.

We use the term domestic abuse to reflect that several abusive and controlling behaviours are involved beyond violence. Slapping, punching, kicking, bruising, rape, ridicule, constant criticism, threats, manipulation, sleep deprivation, social isolation, and other controlling behaviours all count as abuse.

Living in a home where domestic abuse takes place is harmful to children and can have a serious impact on their behaviour, wellbeing and understanding of healthy, positive relationships, including impacting upon their own personal, intimate relationships. Children who witness domestic abuse are at risk of significant harm and staff are alert to the signs and symptoms of a child suffering or witnessing domestic abuse.

Harris Academy Morden is enrolled onto the Operation Encompass scheme, a joint project between the Metropolitan Police Service and Merton Schools; where our DSL is notified of all domestic abuse incidents that have occurred and been reported to Police in the previous 24 hours which involved a child at this school (72 hours on a Monday morning). This provides an opportunity for us to ensure the right support is in place at the right time for children who are experiencing domestic abuse.

What should I do if I suspect a family is affected by domestic abuse?

To talk through your concerns, call the C&F hub or talk to your local outreach service.

Child Sexual Exploitation (CSE)

Keeping children safe in education 2023 defines '**Child sexual exploitation**' as: CSE is a form of child sexual abuse. Sexual abuse may involve physical contact, including assault by penetration (for example, rape or oral sex) or nonpenetrative acts such as masturbation, kissing, rubbing, and touching outside clothing.

It may include non-contact activities, such as involving children in the production of sexual images, forcing children to look at sexual images or watch sexual activities, encouraging children to behave in sexually inappropriate ways or grooming a child in preparation for abuse including via the internet.

CSE can occur over time or be a one-off occurrence and may happen without the child's immediate knowledge e.g. through others sharing videos or images of them on social media.

CSE can affect any child, who has been coerced into engaging in sexual activities. This includes 16 and 17 year olds who can legally consent to have sex. Some children may not realise they are being exploited e.g. they believe they are in a genuine romantic relationship.

All staff are aware of the link between online safety and vulnerability to exploitation.

Any concerns that a child is being or is at risk of being sexually exploited should be passed immediately to the DSL.

The School is aware there is a clear link between regular non-attendance at school and CSE. Staff will consider a child to be at potential CSE risk in the case of regular non-attendance at school and make reasonable enquiries with the child and parents to assess this risk.

The school is aware that a child often is not able to recognise the coercive nature of the abuse and does not see themselves as a victim. As a consequence, the child may resent what they perceive as interference by staff. However, staff must act on their concerns as they would for any other type of abuse. Children also rarely self-report CSE so staff must be particularly vigilant to potential indicators of risk.

The school includes the risks of sexual exploitation in the SRE curriculum. Pupils will be informed of the grooming process and how to protect themselves from people who may potentially be intent on causing harm. They will be supported in terms of recognising and assessing risk in relation to CSE, including online, and knowing how and where to get help.

The following list of indicators is not exhaustive or definitive, but it does highlight common signs which can assist professionals in identifying children or young people who may be victims of sexual exploitation.

Signs include:

- underage sexual activity
- inappropriate sexual or sexualised behaviour
- sexually risky behaviour, 'swapping' sex
- repeat sexually transmitted infections
- in girls, repeat pregnancy, abortions, miscarriage
- receiving unexplained gifts or gifts from unknown sources
- having multiple mobile phones and worrying about losing contact via mobile
- having unaffordable new things (clothes, mobile) or expensive habits (alcohol, drugs)
- changes in the way they dress
- going to hotels or other unusual locations to meet friends
- seen at known places of concern
- moving around the country, appearing in new towns or cities, not knowing where they are
- getting in/out of different cars driven by unknown adults
- having older boyfriends or girlfriends
- contact with known perpetrators
- involved in abusive relationships, intimidated and fearful of certain people or situations
- hanging out with groups of older people, or anti-social groups, or with other vulnerable peers
- associating with other young people involved in sexual exploitation
- recruiting other young people to exploitative situations
- truancy, exclusion, disengagement with school, opting out of education altogether
- unexplained changes in behaviour or personality (chaotic, aggressive, sexual)
- mood swings, volatile behaviour, emotional distress
- self-harming, suicidal thoughts, suicide attempts, overdosing, eating disorders
- drug or alcohol misuse
- getting involved in crime

- police involvement, police records
- involved in gangs, gang fights, gang membership
- injuries from physical assault, physical restraint, sexual assault.

Child Criminal Exploitation & Gangs

There are a number of areas in which young people are put at risk by gang activity, both through participation in, and as victims of, gang violence which can be in relation to their peers or to a gang-involved adult in their household.

A child who is affected by gang activity or serious youth violence may have suffered, or may be likely to suffer, significant harm through physical, sexual and emotional abuse or neglect.

The risk or potential risk of harm to the child may be as a victim, a gang member or both - in relation to their peers or to a gang-involved adult in their household. Teenagers can be particularly vulnerable to recruitment into gangs and involvement in gang violence. This vulnerability may be exacerbated by risk factors in an individual's background, including violence in the family, involvement of siblings in gangs, poor educational attainment, or poverty or mental health problems.

Criminal exploitation of children is a typical feature of county lines criminal activity with children being exploited to move and store drugs and money. "County lines" is a term used to describe gangs and organised criminal networks involved in exporting illegal drugs (primarily crack cocaine and heroin) into one or more importing areas within the UK, using dedicated mobile phone lines or other form of "deal line". Children might be involved in violence, be pressured into doing things like stealing, carrying drugs or weapons or be abused, exploited and put into dangerous situations. Key identifying features of involvement in county lines are when children are missing, when the victim may have been trafficked for transporting drugs, a referral to the National Referral Mechanism should be considered with Social Care and Police colleagues.

A child who is affected by gang activity, criminal exploitation or serious youth violence can be at risk of significant harm through physical, sexual and emotional abuse. Girls may be particularly at risk of sexual exploitation.

Any concerns that a child is being or is at risk of being criminally exploited will be passed without delay to the DSL. The school is aware there is a clear link between regular non-attendance at school and exploitation. Staff will consider a child to be at potential risk in the case of regular non-attendance at school and make reasonable enquiries with the child and parents to assess this risk.

A referral to the C&F hub will be made when any concern of harm to a child because of gang activity including child criminal exploitation becomes known. Any member of staff who has concerns that a child may be at risk of harm should immediately inform the DSL. The DSL will contact the C&F hub. If there is concern about a child's immediate safety, the Police will be contacted on 999.

Children at Risk or Involved in Serious Violent Crime

Serious violent youth crime' is defined by the Home Office Assessment of Policing and Community Safety (APACS) as 'any offence of most serious violence or weapon enabled crime, where the victim is aged 1-19'

Indicators:

- Unexplained gifts/new possessions – these can indicate children have been approached by/involved with individuals associated with criminal networks/gangs

- Increased absence from school
- Change in friendship/relationships with others/groups
- Significant decline in performance
- Signs of self-harm/significant change in wellbeing
- Signs of assault/unexplained injuries

Additional risk factors include:

- being male,
- having been frequently absent or permanently excluded from school,
- having experienced child maltreatment and having
- been involved in offending, such as theft or robbery.

Sharing Nudes and semi-nudes

The practice of children sharing nudes and semi nudes (formerly known as sexting or Youth produced Sexual Imagery) and videos via text message, email, social media or mobile messaging apps has become commonplace. However, this online technology has also given children the opportunity to produce and distribute sexual imagery in the form of photos and videos. Such imagery involving anyone under the age of 18 is unlawful.

Nudes and semi nudes refer to both images and videos where:

- A person under the age of 18 creates and shares sexual imagery of themselves with a peer under the age of 18.
- A person under the age of 18 shares sexual imagery created by another person under the age of 18 with a peer under the age of 18 or an adult.
- A person under the age of 18 is in possession of sexual imagery created by another person under the age of 18.
- Voyeurism Act 2019 – Upskirting is now a criminal act in the UK. The response to this in schools need to be the same as Child-on-child sexual abuse and may including contacting the police. The Criminal Prosecution Service (CPS) defines 'upskirting' as a colloquial term referring to the action of placing equipment such as a camera or mobile phone beneath a person's clothing to take a voyeuristic photograph without their permission. It is not only confined to victims wearing skirts or dresses and equally applies when men or women are wearing kilts, cassocks shorts or trousers. It is often performed in crowded public places, for example on public transport or at music festivals, which can make it difficult to notice offenders. “

All incidents of this nature should be treated as a safeguarding concern and in line with the UKCCIS guidance [Sharing nudes and semi-nudes](#)

Cases where sexual imagery of people under 18 has been shared by adults and where sexual imagery of a person of any age has been shared by an adult to a child is child sexual abuse and should be responded to.

If a member of staff becomes aware of an incident involving youth produced sexual imagery, they should follow the child protection procedures and refer to the DSL immediately.

The member of staff should confiscate the device involved and set it to flight mode or, if this is not possible, turn it off. Staff must not view, copy or print the youth produced sexual imagery.

The DSL should hold an initial review meeting with appropriate school staff and subsequent interviews with the children involved (if appropriate).

Parents should be informed at an early stage and involved in the process unless there is reason to believe that involving parents would put the child at risk of harm.

At any point in the process if there is concern a young person has been harmed or is at risk of harm a referral should be made to the C&F hub or the Police as appropriate.

Immediate referral at the initial review stage should be made to Children's Social Care/Police if:

- The incident involves an adult.
- There is good reason to believe that a young person has been coerced, blackmailed or groomed or if there are concerns about their capacity to consent (for example, owing to special education needs).
- What you know about the imagery suggests the content depicts sexual acts which are unusual for the child's development stage or are violent.
- The imagery involves sexual acts.
- The imagery involves anyone aged 12 or under.
- There is reason to believe a child is at immediate risk of harm owing to the sharing of the imagery, for example the child is presenting as suicidal or self-harming.

If none of the above apply then the DSL will use their professional judgement to assess the risk to pupils involved and may decide, with input from the Head of Academy, to respond to the incident without referral to the C&F hub or the Police.

During the decision making the DSL will consider if:

- There is a significant age difference between the sender/receiver.
- There is any coercion or encouragement beyond the sender/receiver.
- The imagery was shared and received with the knowledge of the child in the imagery.
- The child is vulnerable, for example subject to Child in Need, Child Protection or Early Help plans, Looked After, SEND.
- There is a significant impact on the children involved.
- The image is of a severe or extreme nature.
- The child involved understands consent.
- The situation is isolated or if the image been more widely distributed.
- There other circumstances relating to either the sender or recipient that may add cause for concern.
- The children have been involved in incidents relating to youth produced imagery before.
- Voyeurism occurred.

If any of these circumstances are present the situation will be referred according to our child protection procedures, including referral to the C&F hub or the Police.

The DSL will record all incidents of sharing nudes and semi-nudes, including the actions taken, rationale for actions and the outcome.

Female Genital Mutilation (FGM)

Female Genital Mutilation (FGM) is illegal in England and Wales under the FGM Act (2003). It is a form of child abuse and violence against women. [A mandatory reporting duty requires teachers to report 'known' cases of FGM in under 18s](#), which are identified in the course of their professional work, to the police.

The duty applies to all persons in school who is employed or engaged to carry out 'teaching work' in the school, whether they have qualified teacher status.

The duty applies to the individual who becomes aware of the case to make a report. It should not be transferred to the Designated Safeguarding Lead; however, the DSL should be informed.

If a teacher is informed by a girl under 18 that an act of FGM has been carried out on her or a teacher observes physical signs which appear to show that an act of FGM has been carried out on a girl under 18 and they have no reason to believe the act was necessary for the girl's physical or mental health or for purposes connected with labour or birth, the teacher should personally make a report to the police force in which the girl resides by calling 101. The report should be made immediately.

School staff are trained to be aware of risk indicators of FGM.

Concerns about FGM outside of the mandatory reporting duty should be reported using the school's child protection procedures. Staff should be particularly alert to suspicions or concerns expressed by female pupils about going on a long holiday during the summer holiday.

There should also be consideration of potential risk to other girls in the family and practicing community. Where there is a risk to life or likelihood of serious immediate harm the teacher should report the case immediately to the police, including dialling 999 if appropriate.

There are no circumstances in which a teacher or other member of staff should examine a girl.

It involves procedures that intentionally alter/injure the female genital organs for non-medical reasons.

4 types of procedure:

- Type 1 Clitoridectomy – partial/total removal of clitoris
- Type 2 Excision – partial/total removal of clitoris and labia minora
- Type 3 Infibulation entrance to vagina is narrowed by repositioning the inner/outer labia
- Type 4 all other procedures that may include: pricking, piercing, incising, cauterising and scraping the genital area.

Why is it carried out?

Belief that: FGM brings status/respect to the girl – social acceptance for marriage

- Preserves a girl's virginity

- Part of being a woman / rite of passage
- Upholds family honour
- Cleanses and purifies the girl
- Gives a sense of belonging to the community
- Fulfils a religious requirement
- Perpetuates a custom/tradition
- Helps girls be clean / hygienic
- Is cosmetically desirable
- Mistakenly believed to make childbirth easier

This procedure is also known as cutting, sunna, gudnin (Somali) and Tahur (Sudanese)

Circumstances and occurrences that may point to FGM happening are:

- Child talking about getting ready for a special ceremony
- Family taking a long trip abroad
- Child's family being from one of the 'at risk' communities for FGM:
- Kenya, Somalia, Sudan, Sierra Leone, Egypt, Nigeria, Eritrea as well as non-African communities including Yemeni, Afghani, Kurdistan, Indonesia, and Pakistan
- Knowledge that the child's sibling has undergone FGM
- Child talks about going abroad to be 'cut' or to prepare for marriage

Signs that may indicate a child has undergone FGM:

- Prolonged absence from school and other activities
- Behaviour change on return from a holiday abroad, such as being withdrawn and appearing subdued
- Bladder or menstrual problems
- Finding it difficult to sit still and looking uncomfortable
- Complaining about pain between the legs
- Mentioning something somebody did to them that they are not allowed to talk about
- Secretive behaviour, including isolating themselves from the group
- Reluctance to take part in physical activity
- Repeated urinal tract infection
- Disclosure

Forced Marriage

Keeping children safe in education 2023 states that it is a criminal offence to exploit vulnerable children by arranging for them to marry, under any circumstances, whether or not force is used. In February 2023 the marriage age was increased to 18 years in England and Wales. (The Marriage and Civil Partnership (Minimum age) Act 2022. **In Scotland a person does not require parental consent to marry between 16-18 years.**

A forced marriage is a marriage in which one or both people do not (or in cases of people with learning disabilities cannot) consent to the marriage but are coerced into it. Coercion may include physical, psychological, financial, sexual and emotional pressure. It may also involve physical or sexual violence and abuse.

Forced marriage is recognised in the UK as a form of violence against women and men, domestic/child abuse and a serious abuse of human rights. Since June 2014 forcing someone to marry has become a criminal offence in England and Wales under the Anti-Social Behaviour, Crime and Policing Act 2014.

A forced marriage is not the same as an arranged marriage which is common in many cultures. The families of both spouses take a leading role in arranging the marriage but the choice of whether to accept the arrangement remains with the prospective spouses.

School staff should never attempt to intervene directly as a school or through a third party. Contact should be made with the C&F hub.

One Chance Rule

All staff are aware of the 'One Chance' Rule' in relation to forced marriage, FGM and HBA. Staff recognise they may only have one chance' to speak to a child who is a potential victim and have just one chance to save a life.

The school are aware that if the victim is not offered support following disclosure that the 'One Chance' opportunity may be lost. Therefore, all staff are aware of their responsibilities and obligations when they become aware of potential forced marriage, FGM and HBV cases.

Honour-Based Abuse

Honour based abuse (HBA) encompasses incidents or crimes which have been committed to protect or defend the honour of the family and/or the community, including female genital mutilation (FGM), forced marriage, and practices such as breast ironing. They are a collection of practices, which are used to control behaviour within families or other social groups to protect perceived cultural and religious beliefs and/or honour. Such violence can occur when perpetrators perceive that a relative has shamed the family and/or community by breaking their honour code.

Honour-Based Abuse might be committed against people who:

- become involved with a boyfriend or girlfriend from a different culture or religion.
- want to get out of an arranged marriage; become involved with a boyfriend or girlfriend from a different culture or religion.
- want to get out of an arranged marriage.
- want to get out of a forced marriage
- wear clothes or take part in activities that might not be considered traditional within a culture

It is considered a violation of human rights and may be a form of domestic and/or sexual abuse.

Private Fostering Arrangements

A private fostering arrangement occurs when someone other than a parent or close relative cares for a child for a period of 28 days or more, with the agreement of the child's parents. It applies to children under the age of 16 years old or 18 years old if the child is disabled.

Children looked after by the local authority or who are placed in residential schools, children's homes or hospitals are not considered to be privately fostered.

Private fostering occurs in all cultures and children may be privately fostered at any age.

The school recognise that most privately fostered children remain safe and well but are aware that safeguarding concerns have been raised in some cases. Therefore, all staff are alert to possible safeguarding issues, including the possibility that the child has been trafficked into the country.

By law, a parent, private foster carer or other persons involved in making a private fostering arrangement must notify Children's Social Care as soon as possible. However, where a member of staff becomes aware that a pupil may be in a private fostering arrangement, they will raise this with the DSL and the DSL will notify the C&F hub.

Children Looked After (CLA) and Previously Looked After

The most common reason for children becoming looked after is as a result of abuse and neglect.

The school ensures that staff have the necessary skills and understanding to keep looked after children safe. Appropriate staff have information about a child's looked after legal status and care arrangements, including the level of authority delegated to the carer by the authority looking after the child and contact arrangements with birth parents or those with parental responsibility.

The designated teacher and governor for children looked after will have the appropriate level training to equip them with the knowledge and skills to undertake their role.

The designated teacher for children looked after and the DSL have details of the child's social worker and the name and contact details of the Merton Council's Head of Virtual School.

The designated teacher for children looked after and children previously looked after will work in partnership with the Virtual School Assistant Principal to discuss how Pupil Premium Plus funding can be best used to support the progress of children looked after in the school and meet the needs of the child's within their personal education plan.

Previously looked after children are those who immediately after being in care (as defined above) became subject to an adoption order, child arrangements order or special guardianship order.

Contextual Safeguarding – Risks outside of the home

As well as threats to the welfare of children from within their families, children may be vulnerable to abuse or exploitation from influences outside of their families. The school recognises that these extra-familial threats might arise from within their peer groups, from within the wider community and/or online. These threats can take a variety of different forms and children can be vulnerable to multiple threats, including:

- exploitation by criminal gangs and organised crime groups such as county lines
- trafficking
- online abuse
- sexual exploitation
- extremism leading to radicalisation. Extremist groups make use of the internet to radicalise and recruit and to promote extremist materials.

Staff are trained on contextual influences and follow the school procedures for reporting concerns. Any concerns regarding supply staff should be referred immediately to the Head teacher.

The DSL will ensure that information is shared in the referral process to help social care assessments consider contexts outside of the home.

Children with Special Educational Needs and Disabilities

The school recognises that children with special educational needs (SEN) and disabilities can face additional safeguarding challenges. Additional barriers that can exist when recognising abuse and neglect in this group of children include:

- assumptions that indicators of possible abuse such as behaviour, mood and injury relate to the child's disability without further exploration.
- being more prone to peer group isolation than other children.
- the potential for children with SEN and disabilities being disproportionately impacted by behaviours such as bullying, without outwardly showing any signs; and
- communication barriers and difficulties in overcoming these barriers.

The school addresses these additional challenges by considering extra pastoral support for children with SEN and disabilities.

School Attendance and Behaviour

Additional policies and procedures are in place regarding school attendance and behaviour.

HAMD recognises that absence from school and exclusion from school may be indicators of abuse and neglect, including the exploitation of children. The DSL will regularly liaise with members of school staff with responsibility for behaviour and attendance to ensure risk is identified and appropriate intervention is in place to protect children from harm.

HAMD will work in partnership with Merton Police and other partners for reporting children that go missing from the school site during the school day. Staff will be alert to signs of children at risk of travelling to conflict zones, female genital mutilation and forced marriage.

Children who are absent from education

All children, regardless of their circumstances, are entitled to an efficient, full-time education which is suitable to their age, ability, aptitude and any special educational needs they may have.

The school recognises that children who are absent from education are at significant risk of underachieving, being victims of abuse and harm, exploitation or radicalisation, and becoming NEET (not in education, employment or training) later in life. Keeping children safe in education 2023 have clarified that being absent, as well as missing from education can be a warning sign of a range of safeguarding concerns including sexual abuse, sexual exploitation or child criminal exploitation.

Where possible the school will hold more than one emergency contact number for each pupil.

The school will ensure that there is a record of joiners and leavers as defined in The Education (Pupil Registration) (England) 2006.

The school will ensure that there is a record of joiners and leavers as defined in [The Education \(Pupil Registration\) \(England\) 2006](#).

When removing a child's name, the school will notify the Local Authority of: (a) the full name of the child, (b) the full name and address of any parent with whom the child normally resides, (c) at least one telephone number of the parent, (d) the child's future address and destination school, if applicable, and (e) the ground in regulation 8 under which the child's name is to be removed from the school register.

The school will make reasonable enquiries to establish the whereabouts of a child jointly with the Local Authority, before deleting the child's name from the school register if the deletion is under regulation 8(1), sub-paragraphs (f) (iii) and (h) (iii) of The Education (Pupil Registration) (England) 2006.

The school will:

- Enter pupils on the admissions register on the first day on which the school has agreed, or has been notified, that the pupil will attend the school.
- Notify the Local Authority within five days of adding a child's name to the admission register. The notification must include all the details contained in the admission register for the new pupil.
- Monitor each child's attendance through their daily register and follow the Merton Council procedure in cases of unauthorised absence.
- Remove a child's name from the admissions register on the date that the child leaves the school.
- The school will notify the Local Authority when they are about to remove a child's name from the school register under any of the fifteen grounds listed in the regulations, no later than the date that the child's name is due to be removed.
- Send a truancy text and follow up with a phone call for any child who is absent without a reason provided. (We always advise parents to report a child missing to the Police if they are found to be truanting from school).
- Make a home visit when a child has not attended school without reason after day 5 to check on the child's emotional wellbeing.
- We will make a referral to Children's Social care for any student who is missing from school for 10 days without a reason provided.
- We make 2 visits to the family home before a referral is made to the local education authority Children Missing Education Panel. The threshold for a referral is 20 consecutive days of absence or 20% attendance.
- **If we are extremely concerned about a child's absence, we will call 101 and ask the Police to make a home visit to complete a welfare check.**

Pupils Missing Out of Education

Most children engage positively with school and attend regularly. However, in order to flourish, some children require an alternative education offer or may require a modified timetable to support a return to full time education provision. It is recognised that children accessing alternative provision, or a reduced or modified timetable may have additional vulnerabilities. Ofsted refer to these as Pupils Missing Out on Education (PMOOE), because they are not accessing their education in school in the 'usual way'.

Where children are educated offsite or in dual placements safeguarding risk assessments are completed.

HAMD will gain consent (if required in statute) from parents to put in place alternative provision and/or a reduced or modified timetable

HAMD will ensure that and parents (and the local authority where the pupil has a statement of special educational needs) are given clear information about alternative provision placements and reduced or modified timetables: why, when, where, and how they will be reviewed;

HAMD will keep the placement and timetable under review and involve parents in the review. Reviews will be frequent enough to provide assurance that the off-site education and/or modified timetable is achieving its objectives and that the pupil is benefitting from it.

HAMD will monitor and track children attending alternative provision to ensure that the provision meets the needs of the child

HAMD will comply with regular data returns requested by the Local Authority, regarding all pupils, of statutory school age, attending alternative provision and/or on a reduced or modified timetable.

Our Senior Leadership Team regularly updates our Governing Body in regard to pupils attending an alternative educational provision.

Alternative Provision

Alternative Provision is education arranged by local authorities for pupils who, because of exclusion, illness or other reasons, would not otherwise receive suitable education. Education arranged by schools for pupils on a fixed period exclusion; and pupils being directed by schools to off-site provision to improve their behaviour.

Harris Academy Morden will ensure that for every child attending Alternative Provision, we will check that all safeguarding policies and procedures are in place, that all staff have been recruited according to 'Safer recruitment' procedures and have undergone safeguarding training. We will visit the setting to ensure all the above are in place.

Elective Home Education

Where a parent/carer expresses their intention to remove a child from school with a view to educating at home, we will work together with key professionals to coordinate a meeting with parents/carers where possible. Ideally, this would be before a final decision has been made, to ensure the parents/carers have considered what is in the best interests of each child. This is particularly important where a child has SEND, is vulnerable, and/or has a social worker.

Children who need the support of a Social Worker

Children may need a social worker due to safeguarding or welfare needs, such as abuse, neglect and complex family circumstances.

In addition to their responsibility with Looked After/ Previously Looked After Children the Virtual School Headteacher has a strategic responsibility for promoting the educational outcomes of children

with a social worker. This includes the oversight of attendance, attainment and progress. The Virtual School Headteacher will engage with key professionals to help them understand the role they have in improving outcomes for children.

These experiences can leave children vulnerable to further harm, as well as potentially creating barriers to attendance, learning, behaviour and mental health

The local authority should inform the school if a child has a social worker, and the DSL should hold and use this information in the best interests of the child's safety, welfare and educational outcomes, such as when decisions are made on

- Responding to unauthorised absence or missing education where there are known safeguarding risks
- The provision of pastoral and/or academic support

See <https://www.gov.uk/government/publications/review-of-children-in-need/review-of-children-in-need>

School Attendance and Behaviour

Additional policies and procedures are in place regarding school attendance and behaviour.

The school recognises that absence from school and exclusion from school may be indicators of abuse and neglect, including the exploitation of children. The DSL will regularly liaise with members of school staff with responsibility for behaviour and attendance to ensure risk is identified and appropriate intervention is in place to protect children from harm.

Children who are absent from education or missing/absconding during the school day can also be a sign of a range of safeguarding concerns including sexual abuse, sexual exploitation or child criminal exploitation.

The school will work in partnership with Merton Police and other partners for reporting children that go missing from the school site during the school day. Staff will be alert to signs of children at risk of travelling to conflict zones, female genital mutilation and forced marriage.

Restrictive Physical Intervention

We acknowledge that staff must only ever use physical intervention as a last resort, when a child is or at immediate risk of harming him/herself or others, and that at all times it must be the minimal force necessary to prevent injury to another person. Such events should be fully recorded and signed by a witness.

Staff who are likely to need to use physical intervention will be appropriately trained in "Positive Options" techniques.

Staff understand that physical intervention of a nature which causes injury or distress to a child may be considered under child protection and/or disciplinary procedures.

We recognise that touch is appropriate in the context of working with children, and all staff have been given 'Safe Practice' guidance to ensure they are clear about their professional boundaries.

When applying disciplinary measures such as physical intervention or isolation for children with SEND the school will consider the risks, given the additional vulnerabilities of these children.

Health (including Mental Health)

Mental Health

We recognise that Harris Academy Morden has an important role to play in supporting the mental health and wellbeing of our pupils. All staff are aware that mental health problems can, in some cases, be an indicator that a child has suffered or is at risk of suffering abuse, neglect or exploitation. Although it is only appropriately trained professionals who can diagnose mental health problems, staff observe children day-to-day and identify those whose behaviour suggests that they may be experiencing mental health problems or be at risk of developing one.

Where children have suffered abuse and neglect and other potentially traumatic adverse childhood experiences, this can have a lasting impact throughout childhood, adolescence and into adulthood. It is key that staff are aware of how these children's experiences can impact on mental health, behaviour and education.

If staff have a mental health concern about a child that is also a safeguarding concern, immediate action should be taken by speaking with one of the school's DSLs. School has access to a range of advice to help them identify children in need of extra mental health support; this includes working with external agencies. School has access to [Mental Health and Behaviour in Schools Guidance](#)

Merton Safeguarding Children's Partnership have issued the following guidance: [Supporting Young People Who Self-Harm or Experience Suicidal Ideation - Merton Safeguarding Children Partnership \(mertonscp.org.uk\)](#)

If we have a significant concern in regard to a student's mental health and are of the opinion that they are not in a place for learning, we will make contact with their parent to request that they are collected from school and taken to the local Accident and Emergency department to be assessed by a Mental Health professional.

Any child with a significant health condition requiring regular medication or treatment will require an Individual Medical Health Care Plan which will be completed with the parent and school nurse. It is vital that parents inform us if their child has a health condition of this nature to enable us to ensure that their child's health needs are managed appropriately whilst they are at school. Information from this plan will be shared with key staff members to ensure that they are alert to the child's individual needs.

Whistleblowing

We recognise that children cannot be expected to raise concerns in an environment where staff fail to do so.

All staff should be aware of their duty to raise concerns, where they exist, about the management of child protection, which may include the attitude or actions of colleagues, poor or unsafe practice and potential failures in the school's safeguarding arrangements. If it becomes necessary to consult outside the school, they should speak in the first instance, to the LADO in accordance with the Whistleblowing Policy.

The NSPCC whistleblowing helpline is available for staff who do not feel able to raise concerns regarding child protection failures internally or have concerns about a way a concern is being handled by their school. Staff can call: 0800 028 0285 – line is available from 8:00 AM to 8:00 PM, Monday to Friday and Email: help@nspcc.org.uk.

Whistle-blowing regarding the Principal should be made to the Chair of the Governing Body, whose contact details are readily available to staff by contacting the Clerk to the Governors, through the school office or emailing the Chair of the Governing Body directly on ... (insert email address) .
